

RUEF'S ATTORNEY DELMAS' STRONG CLOSE TO PRISON PLEA FOR THAW

NEW YORK, April 9.—Mr. Delmas' closing was an almost direct appeal to the unwritten law. He referred to it as the species of insanity which made the average American believe his home and the honor of his wife and daughters to be sacred.

Delmas was interrupted in his closing by an objection by Assistant District Attorney Garvin. His plea was in however. He said he left Thaw's fate in the hands of the jurors with every confidence that he would be acquitted, under that golden law—the oldest law of all, the foundation of all laws—"Do unto others as you would have them do unto you." Adjournment was taken until 11:30 tomorrow morning.

THE COURT CALLS DOWN ATTY. ACH

Judge Dunne Will Not Let Him Ask Jurors Impertinent Questions.

SAN FRANCISCO, April 9.—The most exciting incident thus far in the trial of the case happened shortly before the noon adjournment. Mr. Ach had asked Juror Otis whether, if any contributions to the prosecution had been made that fact would influence his attitude toward the defendant. Mr. Johnson angrily objected to the question and questioned the sincerity of the defense in asking it.

"The gentleman knows," he declared, "that not one quarter of a penny has been so contributed, and he cannot produce any reputable witness to the contrary. He does not attempt to support his insinuation, which was made purely for the purpose of casting a slur upon counsel for the people."

Ach, in a sarcastic rejoinder, excepted to the "harangue" of the counsel for the prosecution.

"Will you name your informant?" demanded Mr. Johnson.

"None of your business," shouted Ach.

"I will say, Mr. Ach," observed the court, "that I think it would be a much more manly and honorable procedure for you to assist the court by naming your informant than for you to cast out these insinuations."

Mr. Ach, much excited, made the following reply:

"I except to the remarks of the court. I know my business as an attorney, and I don't need any lecture from the court or from anybody else, as to my manliness."

Mr. Ach finally took his seat after several admonitions by Judge Dunne, who informed the attorney that his conduct was "most reprehensible."

SAN FRANCISCO, April 9.—When the trial of Abraham Ruef was resumed this morning one of his counsel, Samuel F. Shortridge, was absent. Mr. Shortridge sent the explanation that his wife was seriously ill.

The examination of salesman Frederick H. Coon, a salesman, was conducted by Mr. Johnson. In examining for the defense, Mr. Ach developed a doubt of the juror's name being on the assessment roll and he was temporarily passed until the roll is produced in evidence.

James Otis, a commission merchant, was examined by District Attorney Langdon.

In the course of an exhaustive examination by Mr. Ach for the defense Otis admitted that he had gained from newspaper reading a very strong impression that Ruef was a dishonest and corrupt man. "But," said the juror, "I could put that impression aside long enough to give him a fair trial."

Otis said that the returning by the grand jury against Ruef of 65 indictments for bribery had greatly strengthened his belief in Ruef's guilt, as did also Ruef's failure to appear for trial, and the declaration by the court that he was a fugitive from justice.

At this point Ach reverted to the line of examination previously employed by the defense to determine whether in the minds of the jurors there existed the belief that Judge Dunne considered Ruef guilty and desired his conviction.

Though Ach's question was adroitly put, it apparently roused the indignation of the court.

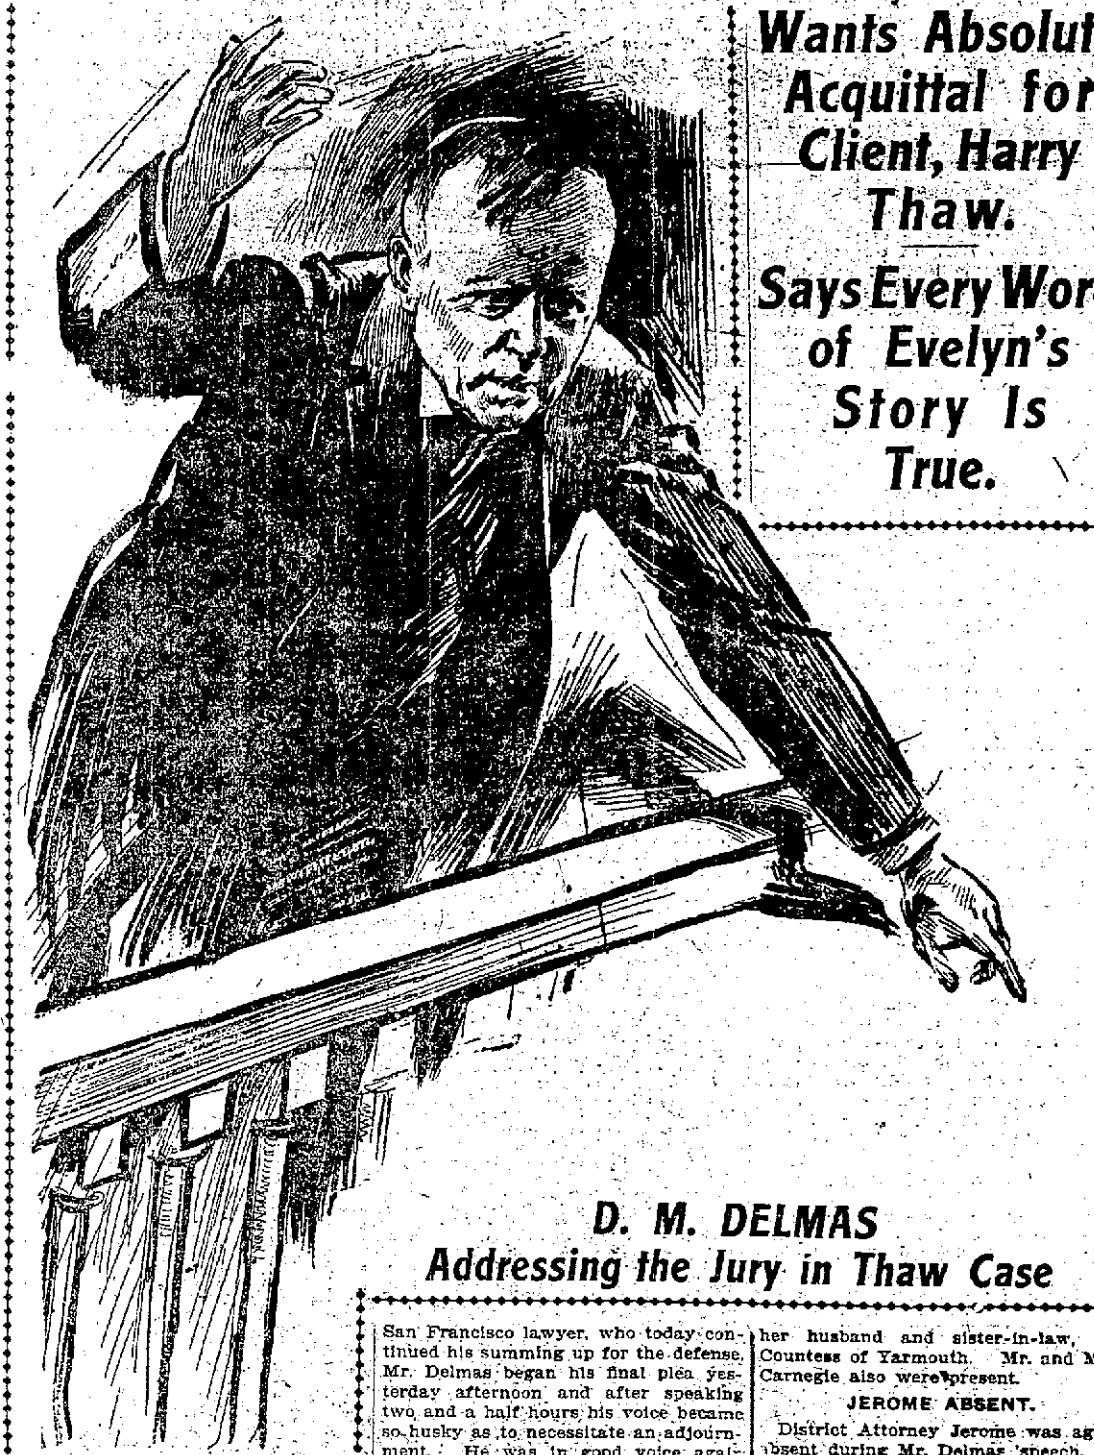

"Don't ask any more questions on that point," commanded Judge Dunne.

"DOES YOUR HONOR MEAN," SAID ACH, "THAT I AM NOT TO ASK THIS JUROR OR ANY OTHER JUROR WHETHER HIS MIND HAS BEEN INFLUENCED TOWARD THE DEFENDANT BY ANY BELIEF THE JUROR MIGHT HAVE GAINED, THOUGH ERRONEOUSLY, THAT THE COURT DESIRED A RESULT IN THIS CASE?"

"That is exactly what I mean," was the reply.

LAWYER IS MAKING SPEECH OF HIS LIFE

NEW YORK, April 9.—DELMAS, DENOUNCING STANFORD WHITE, SAID: "THAW HAD SNATCHED THE GIRL FROM THE OLD LECHER WHO SAW IN HER BUT A TOY TO GRATIFY A MOMENT'S LUST AND THEN BE CAST ASIDE TO GO HER WAY DOWN THE PATHS OF FALLEN WOMEN." DELMAS CALLED ATTENTION TO THE FACT THAT AS LATE AS MAY, 1906, STANFORD WHITE TOLD MAY MACKENZIE HE WOULD GET EVELYN BACK YET.

Wants Absolute Acquittal for Client, Harry Thaw. Says Every Word of Evelyn's Story Is True.

D. M. DELMAS
Addressing the Jury in Thaw Case

Awful Grilling of the Late Stanford White.

NEW YORK, April 9.—Not since the day when Evelyn Thaw gave to the world the story of her life has the court room, where the final scenes of the Thaw trial are now being enacted, been so crowded as it was today. The attraction was Delphin M. Delmas, the

San Francisco lawyer, who today continued his summing up for the defense. Mr. Delmas began his final plea yesterday afternoon and after speaking two and a half hours his voice became so husky as to necessitate an adjournment. He was in good voice again when the proceedings were resumed today, and at the outset promised to be even more effective than yesterday.

BAD WEATHER.
Despite the inclement weather—snowstorm without—the court room was besieged an hour before the time for the opening, a large percentage of the spectators being women.

With much difficulty the police succeeded in keeping the crowd down to the actual seating capacity, so that, although every available bit of space was occupied, good order prevailed while Mr. Delmas was making his appeal to the jury.

Members of the Thaw family, as usual, were among the early arrivals. Evelyn Thaw was a trifle late, but arrived in time to hear the opening sentences. A new figure appeared in the Thaw group today. It was that of Mrs. Edward Thaw, who accompanied

her husband and sister-in-law, the Countess of Yarmouth. Mr. and Mrs. Carnegie also were present.

JEROME ABSENT.
District Attorney Jerome was again absent during Mr. Delmas' speech.

When Mr. Delmas arose to resume his argument he told the jury he would endeavor to be as brief as possible in order not to tax their patience and to relieve them of their onerous duty as speedily as consistent with the responsibilities resting upon him.

"When I am done," said Mr. Delmas, "I shall give the fate of my client into your hands with every confidence."

Mr. Delmas said it would be necessary to cast a rapid glance over the remarks of yesterday in order to connect the threads of his argument.

FLIMSY BASIS.
The State, Mr. Delmas said, had attempted to set the scene for the last act in the tragedy upon the flimsy basis of an affidavit dictated by a felon—a man convicted of perjury.

Mr. Delmas quoted briefly from the

SHE READ OF HER DEATH IN PAPERS

Then This Women Went Into Hysterics and Passed Away.

CHICAGO, April 8.—A dispatch to the Tribune from Evansville, Indiana, says: "Thrown into a state of nervous prostration by reading an account published in a newspaper of her supposed death, Mrs. Louisa Duley, aged 49 years, expired last night. Through an error the death of a woman of the same name was reported as having occurred in Mrs. Duley's home and as she read the account she fell from her chair to the floor. The physician who was called was unable to learn the reason for her collapse. She became rational later, and after talking a few minutes, began to cry: 'I am dead! I am dead! I saw it in the paper!' and died in hysterics."

WOMAN DENIED RIGHT TO SEE DYING FATHER

She Traveled Two Thousand Miles in Order to Reach Bedside of Parent.

CHICAGO, April 8.—At the end of a 2000 mile journey, Mrs. Helen Browning of the State of Washington, has been denied audience with her dying father to whose side she sought to hasten when she learned that his death was imminent.

Between them stands the woman's mother, still bitter because of the daughter's marriage many years ago against parental opposition. Resolutely she has refused her daughter even admittance to the house.

The dying man is William Sage of Waukegan. Stricken with paralysis as the result of a runaway accident

at a funeral a year ago, in the last week he has grown rapidly worse. Friends of the family wrote Mrs. Browning that to see her father again alive she would have to hasten.

Reaching her former home in Waukegan yesterday, she was met at the door by her mother. With tears streaming she implored admittance, but the mother was obdurate and she was turned away with bitter reproaches.

Mrs. Browning now is at a hotel at Waukegan. In agony lest her father die before her mother relents, she consulted an attorney in the afternoon in the hope that she might through legal proceedings reach his side and obtain from him the forgiveness which her mother withholds.

PRESBYTERIAN CONTEST GOES TO VOTE WEDNESDAY

The contest for supremacy in the First Presbyterian Church is on. The issue to gain control will be decided by the vote Wednesday night. Here are the letters sent out:

"For Progress, Oakland, Cal., April 9, 1907.

"To the members and contributors of the First Presbyterian Church: Two years ago the population of Oakland was about 75,000. Today conservative estimates place the total at 225,000—three times as much.

"While the city has thus grown, and other churches have benefited by the increase, our own church seems to have declined in interest and attendance.

"It saddens our hearts to see our First Church on the downward grade, and we feel it is our duty to endeavor to change its course sufficiently to set it again upon the upward road where it belongs.

"This necessitates some changes in direction and financing, and to that end we trust to enlist your aid.

RANCHER MAY FACE CHARGE

Seriously Cut Man Accuses Neighbor of Brutal Attack With Knife.

In a dispute over the pasturing of a cow this morning, Andrew C. Carlson, a dairyman of Pittsburg, is said to have cut John Vincent, a rancher of the same place, across the left ear, cutting three arteries and nearly severing the member. The alleged cutting affair, it is stated, took place in front of Vincent's house at 7 o'clock this morning. Constable William Allen has a warrant for Carlson's arrest.

According to the police, Carlson's cow strayed down to the Vincent place this morning, and when its owner came down to look after the animal he was met by Vincent. Words followed, says the police, and when Vincent reached down for the rope Vincent says Carlson drew a big pocket knife and made a stab at the former. The point of the blade first struck the skull and glanced down over the ear.

Dr. Hamilton was called to treat Vincent and the Constable interfered in the alleged knife incident. Carlson, the police say, is quarrelsome and has been arrested before on battery charges. A charge of assault with intent to kill will probably be lodged against him when he is arrested.

PREPARATIONS ARE GOING ON

Presentation of "Little Clay Cart" in Greek Theater to Be Elaborate.

BERKELEY, April 9.—Dramatic persons are preparing for the presentation of the "Little Clay Cart," which had to be postponed, owing to inclement weather. It will be given next Wednesday night in the Greek Theater.

The decorations have been at work for several days in the theater, bamboo and palms from the University campus being used on the stage to represent the sacred grove. At one side of the stage is a huge idol, seated on a throne, and the stage is divided into two parts. This was necessary because the Hindu drama requires call for scenes, in which action is going on, both indoors and outdoors at the same time. The indoor scenes will be enacted on a wooden scaffolding at the back of the main stage.

The production of the play is considered such an important event in the scholastic world that a book is being written about it. Yesterday was passed in securing photographs for this book. Princess, the Chutes elephant, submitted gracefully to the advances of the camera man, but the zebra was less docile. The animal, though small, is provided with a pair of sharp horns. Trainer Hall, of the Chutes spent the morning in trying to get a pretty harness on the zebu, while four or five assistants tried to hold it down. It finally escaped and drove all the spectators to the highest tier of seats in the theater. A beautiful oriental cart has been made for the zebu to draw. It is a two-wheeled affair, covered with elaborate red and gold drapery. The zebu will be put through its paces thoroughly before Wednesday night, so that there will be no danger of its overturning the cart and spilling the heroine into the audience.

After three attempts, each of which so far failed, the expedition, led by Charles A. Gilchrist, a Philadelphia mining engineer, accompanied what few men have in the ascent of the steep and dangerous Mt. Matterhorn in the district of Pizol, Mexico. The expedition, which was organized by Gilchrist, had been associated with comparative ease by Mr. Gilchrist. Nothing from its top the glistening of ice and snow, determined to make the top of the forbidding mountain. Few have made this ascent because of the steep sides, loose lava and unyielding lurch. The first attempt was unsuccessful, but on the second Mr. Gilchrist reached the second of the mountain's peaks, and on the third narrow ledge he encamped and on the following morning he began the more difficult climb to the top. Here he encountered snow and this very considerable obstacle forced him to return to the base of the mountain. On the third attempt, schooled by his previous two, he made his way easily to the second ridge and with pike and rope, and after eleven days spent in the effort, gained the snow-capped summit. Mr. Gilchrist is one of the few men who on this mountain have left the world's record of the ascent. He entered the "Everest" of his mind and invigorating mid-way and finally suffered the cold of its summit. While on the last ascent, occupying seven days and nights, Mr. Gilchrist cooked food and slept in niches on the mountain side, meanwhile making notes on the geological formations beneath the lava covered surface. Mr. Gilchrist is 18,000 feet above the sea level, while the Swiss Matterhorn is only 14,570. Mr. Gilchrist made the descent without mishap.

Amateur Baseball

The crack team of St. Joseph's Academy, Berkeley, went down to defeat Sunday to the Stars of St. Patrick's Institute, West Oakland. This is the first defeat the Academics have tasted in fifteen games. Lydon, captain of the Stars, piloted his men to victory in the seventh.

With two on, he landed on one of Coney's benders for a three-sacker. His fielding was of the phenomenal class, and he piloted the sacks in sensational style.

Brown, at first, covered the big "a la chase" style, and was equally effective with the willow. The Mosswood baseball team opened their season with flying colors by defeating the Shermans in their opening game by the score of 9 to 8. The Mosswoods have found a star pitcher in Jim Kennedy. The Mosswoods line up is as follows: Pitcher, J. Kennedy; catcher, H. Nold; first base, Frank Kruse; second base, Charlie Fern; shortstop, C. McCarthy; third base, Harry Larsen; left field, Bob Korpel; centerfield, Marky Scanlon; right field, John Sore. The Mosswoods would like to hear from any team under 15 years of age. Address all challenges to Frank Kruse, secretary of the Mosswood Athletic club, 431 Thirty-eighth street, Oakland, Cal.

IS ADDRESSED BY BRITISHER

Presbyterian Alliance at Washington Hears Talk of Ambassador.

WASHINGTON, April 9.—"Presbyterianism," was the subject of an address by the British ambassador, Mr. Bryce, last night, when he was the guest of honor at the annual banquet of the Presbyterian Alliance of Washington. The ambassador, who is a Presbyterian, spoke upon the doctrine of Presbyterianism in Scotland and the United States, paying a high tribute to Presbyterianism.

Mr. Bryce deprecated the movement to abolish the old time songs and hymns, saying there is no plausible reason for a change. "In this country," he said, "Presbyterianism has grown widely and powerfully. It represents the sentiment of many millions of men and women, and the beauty of it all is that the faith carries with it reserve, dignity and sincerity."

SKEWER LANGUAGE AS USED IN NEW YORK

There are about fifty men in this city who know how to make meat skewers keep a record of their business. Such a way that each representative of the Chicago packers, who sell thousands of quarters of beef every day to butchers.

The work of these men is accomplished with great rapidity. Frequently they are making sales to a dozen butchers at the same time and to record these sales in a book would not only consume a lot of time, but would be difficult, as all quarters of beef look alike.

As soon as a sale is made the salesman sticks skewers into a quarter selected by the butcher. The skewers are placed in such a way that each butcher's purchases are easily picked out when the time comes for delivering them.

As some of the salesmen have as many as a hundred customers in a day it is evident that as many combinations of the skewers have to be formed. In no case are more than three skewers used on a piece of beef.

In one big box there were twenty rows of quarters of beef, with forty quarters in each row. In each piece of beef were skewers placed at various angles, straight up, two of them crossed and in very convenient combination.

"I know by these skewers who each piece belongs to," said the salesman. "Every beef house salesman has his own signs."

This method of marking the meat serves several purposes in addition to that of saving time. A salesman from another house could not come in here and find out what my customers have bought by looking at the skewers, which would be easy enough if the meat had their names on.

"Neither can one butcher find out what quality of beef another is buying. I could make a thousand mistakes without using more than three skewers on any one piece of meat."—From the New York Sun.

A RELIC OF WASHINGTON.

Memorial Pitcher Which Was Made Shortly After the Death of First President.

Mrs. Edward A. Stevens, 206 West Lake street, is the possessor of a rare Washington memorial pitcher, a limited number of which were made shortly after the death of George Washington, December 14, 1799. This pitcher was originally owned by Mrs. Stevens' great-grandfather, and has been handed down from family to family.

It is made of common ware, glazed over. Its surface is badly cracked and shows marks of extreme age. Although it only holds a quart, its present owner would not part with it for a great sum of gold, holding it precious. Many flattering offers were made for it at the time it was on exhibition at the Philadelphia centennial in 1876, but a deaf ear was turned to all.

On one side is an ode to liberty for the gaining of which Washington gave his best years in the service of his country. On the streamer surrounding the ode are the names of the fifteen States in the union at the time of Washington's death. They are: Virginia, Maryland, Delaware, Pennsylvania, New York, New Jersey, Connecticut, Rhode Island, Massachusetts, New Hampshire, Vermont, North Carolina, South Carolina, Georgia and Kentucky. The inscription within the scroll, in the quaint lettering of those days, reads: "O Liberty, thou Goddess, Heavenly bright, Profuse of bliss, and pregnant with delight; Eternal pleasures reign, an smiling plenty leads thy wanton train."

On the reverse side of the pitcher is a picture of George Washington in heaven, below which is shown a female figure representing America in tears. There also are reproduced the dates of his birth and death, February 11, 1732, and December 14, 1799, respectively. The date of birth is given according to the old calendar reckoning which was followed in the colonies in England until changed by an act of Parliament September 2, 1752.

The change to the new calendar added eight days, and thus it is that we celebrate the anniversary of George Washington's birthday on February 22 instead of 24.

This is not the only Washington relic in Minnesota. In the rooms of the State Historical Society are a pair of epaulettes once worn by the first President, and a chair he owned and used. —Minneapolis Journal.

PREDICTS LONG, HARD STRUGGLE

Secretary of Laundry Workers Council, No. 55, Says End Is Far Away.

"We are going to win" is the slogan of Local Council, No. 55, of the Alameda County International Shirt, Waist and Laundry Workers Association. An enthusiastic meeting of the laundrymen was held this morning to hear the report that the only laundry to sign up was the Independent Laundry of San Francisco. Not one laundry in Alameda county has signed the agreement, but, despite this fact, the members of the laundry association feel sure they will be victorious.

STRIKE FOR RIGHTS.

"I believe that this strike for our rights is going to be a long, hard fight," said Sidney H. Gray, Secretary of Local Council, No. 55. "I would not rest for a moment upon the theory that this is going to be a short fight, and we are preparing ourselves for fight. There is no indication of an end to the strike on this side of the bay. It might be several months before an amicable settlement is made."

The laundry workers say they will not surrender until they get something tangible and declare that they are bound to win and will not change the new agreement.

TIME WAS WHEN CHIEF PLAYED PONIES

Chief of Police Collins is not a gambling man, but he admits having once played the ponies. It was years ago, when he was lieutenant at Harrison street that he played the ponies. This is the way he tells the story:

"I didn't know one horse from another, but I heard the men in the department talking about the money they had won. If they lost a bet they never mentioned it. One day during a meeting at the Robey track, a 'cooper' at Harrison street told me he was going out to put \$5 on a good thing, as he called it. I said to him in a joke, 'Why don't you play Slaway?' 'That's the best horse out there today,' he said. 'The meaning I wished to convey was that if he stayed away from the track he would be a fool, and remembering my tip to play Slaway, he looks at the card and sees a horse named Getaway in the third race. He was 8 to 1 for first place. The 'cooper' thinking he had got the names mixed, laid his \$5 on Getaway, who came under the wire about a block ahead of the other race. 'When he returned to the station he handed me a \$20 bill with the remark: 'I played that horse you gave me, lieutenant, and won \$40. This is your half of it.'"

And Collins took it.—Chicago Record-Herald.

STORY CONCERNING THE CHIEF JUSTICE

Chief Justice Fuller apparently wishes it to be known that he has no intention of resigning in order to make room for Mr. Taft. The chief justice recently gave a dinner at which both the President and Mr. Taft were present. Mr. Fuller showed his guests a new portrait of himself and remarked that it was his favorite.

"Not a day younger than the original," said Mr. Taft, gracefully. "Thank you," said the chief justice, adding with what looked like just a trifle of emphasis: "I never felt better in my life."

Senator Platt was recently asked by Senator Carter of Montana as to how he stood in reference to the reception of Reed Smoot, the Mormon Senator. Senator Platt narrowed his eyes in an appreciative, crafty glance and replied: "To tell the truth, I was just waiting to salute our colleague from Utah, for I tell you, Tom Carter, it's my private opinion that it takes a mighty smart man to be a Mormon—without complications."

Count Bellesheim, the president of the Reichstag, is one of the most influential men in the dominion of the Kaiser. He has been spoken of as the "Uncle Joe Cannon" of Germany. Well liked by all classes, he is thoroughly admired for his brilliant success as a politician.

NEW YORK, April 9.—Elmer E. Snathers will retain the gold cup won by his horse, Major Delmar in a race with Lou Dillon in 1904, as the result of a verdict returned today by the jury in the suit brought by the Memphis Trotting Association.

THE TRIBUNE

NOMOREPOLO FOR FRISCO PLAYERS

There will be no more roller polo games in San Francisco. The action which disposes of the roller polo game was taken at the Auditorium Skating Rink in the city last night. The management of the auditorium rink could not see its way clear to maintain the roller polo players for the present, owing to the fact that no team in the league seemed able to compete with them and that consequently the games lost interest and patronage. The Auditorium team had some star players in its line-up from the East, and they usually had the other teams beaten before the call of time.

The sport may be resumed during the winter months.

STRIKE FOR RIGHTS.

"I believe that this strike for our rights is going to be a long, hard fight," said Sidney H. Gray, Secretary of Local Council, No. 55. "I would not rest for a moment upon the theory that this is going to be a short fight, and we are preparing ourselves for fight. There is no indication of an end to the strike on this side of the bay. It might be several months before an amicable settlement is made."

THE VARSITY TEAM TO PLAY FRIDAY

The varsity track team of Berkeley will meet the track team of the University of Southern California on Friday, April 12, at the University of California track.

Although Stanford recently defeated the Southerners 10 to 3, they have some excellent men in their team and a good game is looked for when they meet the wearers of the Blue and Gold.

PUGILIST IS GUILTY OF BATTERY

Tommy Burns, who recently fought a draw with Philadelphia Jack O'Brien at Los Angeles was found guilty yesterday in a Los Angeles police court on a charge of battery. The prosecuting witness was F. W. Gensel, and he testified that Burns struck him in the face. The pugilist admitted the charge, but pleaded that it was justified, because Gensel was one among a number of men, who impeded the progress of his wife while walking the streets of Los Angeles one day last week.

Burns' claim was disallowed; he was found guilty and sentence will be passed on the pugilist today.

He was good-natured this morning when asked by Justice Samuels to stand up. "How are you this morning, Song?" asked the Justice. "Pretty well, how're you?" replied the old fellow. "Do you think you are the emperor this morning?" further questioned the Court. "Yes, me the emperor, China, United States, all of 'em," answered Gong. "I got six mothers, one father, thirty-six brothers, two hundred fifty children—all boys. I go home." With that Gong walked to the grated door and leaving the courtroom bowed his thanks to Justice Samuels, Clerk Mott and other court officers.

THOUSANDS HAVE KIDNEY TROUBLE AND DON'T KNOW IT

Weak and unhealthy kidneys are responsible for more sickness and suffering than any other disease, therefore, when through neglect or other causes, kidney trouble is permitted to continue, fatal results are sure to follow.

Your other organs may need attention—but your kidneys most, because they do most and should have attention first. If you are sick or "feel badly," begin taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy, because as soon as your kidneys begin to get better they will help all the other organs to health. A trial will convince any one.

The mild and immediate effect of Swamp-Root, the great kidney and bladder remedy, is soon realized. It stands the highest because its remarkable curative power has been proven in thousands of the most distressing cases. If you need a medicine, you should have the best.

WILSON, Conn., Feb. 18, 1906.
DEAR SIR: "A man could not be in any worse condition than I was with kidney and bladder troubles. I doctored with several good doctors and one physician told me I had Bright's Disease and that I would not live over six months. Another told me it was gall stones. I had severe pains in my kidneys all the while, could not sleep over, would be dizzy, could not lie down without someone helped me up; my back was weak and pained me; urine was as thick as cream and it would scald me something dreadful. I had to get up many times in the night to urinate. I took Swamp-Root and today I am a well man and never felt better. All of my troubles have gone and show no signs of returning. I take my oath that Swamp-Root put me where I am today and I can prove it by acquaintances. Very truly yours, E. H. RAND.

EDITORIAL NOTE—In order to prove the wonderful merits of Swamp-Root, you may have a sample bottle and a book of valuable information, both sent absolutely free by mail. The book contains many of the thousands upon thousands of testimonial letters received from men and women who found Swamp-Root to be just the remedy they needed. The value and success of Swamp-Root are so well known that our readers are advised to send for a sample bottle. In sending your address to Dr. Kilmer & Co., Binghamton, N. Y., be sure to say you read this generous offer in Oakland Daily TRIBUNE. The genuineness of this offer is guaranteed.

WOMAN MAY BE LOCATED

Missing Wife Is Said to Be at
Work in San Francisco—
Police Searching.

Mrs. Minnie L. Barber, reported as missing from the Bee ranch, near Fresno, may be located soon. Her husband, W. H. Barber, is foreman at the ranch and has reported that his wife left home and children three weeks ago, and he has been unable to locate her, although he has searched diligently.

Frank Chester called at police headquarters last night and reported that Sunday evening he met a woman answering the description given of Mrs. Barber. She was walking on San Pablo avenue, between Seventeenth and Eighteenth streets. The woman accosted Chester, asking him for 50 cents. She said she had been stopping in a boarding house in this city but her money had been exhausted and it was necessary for her to get work and help.

Chester says the woman acted peculiarly. He noticed a mole on her chin, the same as the one given in the description of the missing Mrs. Barber.

After receiving the money the woman told Chester she was on her way to San Francisco, where she had employment as waitress in a working man's restaurant, but did not give the location.

GIVES ORDERS TO NOTE RULES

Nicaraguan Consul Warrants
Observance of International
Law During War.

WASHINGTON, April 9.—Senior Echazaretta, the Nicaraguan Consul at New Orleans, advises the Nicaraguan legation in this city that according to a communication from General Juan Estrada, general commanding the Nicaraguan expedition engaged in capturing Honduran ports, explicit instructions were given to the General to follow strictly the rules and regulations in accordance with international law when nations are at war, guaranteeing life and property of every neutral citizen at the different places where his forces are.

General Estrada states that he is ready to guarantee the life and property of every foreigner and that he has made such guarantee good. He says this has been proved by the fact that no complaints have been made to the contrary, the only complaints received, he said, were that there had been a lack of laborers for the work in the banana plantations which, he said, was because of the Honduran authorities make them soldiers to fight against the Nicaraguan forces. He stated that as soon as the Nicaraguan forces took possession of the place they liberated as many laborers as they could to go back to their work.

Your Heart

is a wonderful pump that works incessantly, averaging seventy-five strokes a minute and forcing from 20 to 30 pounds of blood throughout the body each minute.

The power that keeps this wonderful pump in motion is nerve force, the energy furnished by the nerves.
Disease, over-exertion, fright, anxiety, alcohol, tobacco and other stimulants weaken these nerves, but the heart instead of stopping, makes extraordinary efforts and causes heart strain.
Then comes shortness of breath, heart palpitation, dizziness, etc., because the nerves are too weak to furnish power. Take the only safe remedy—

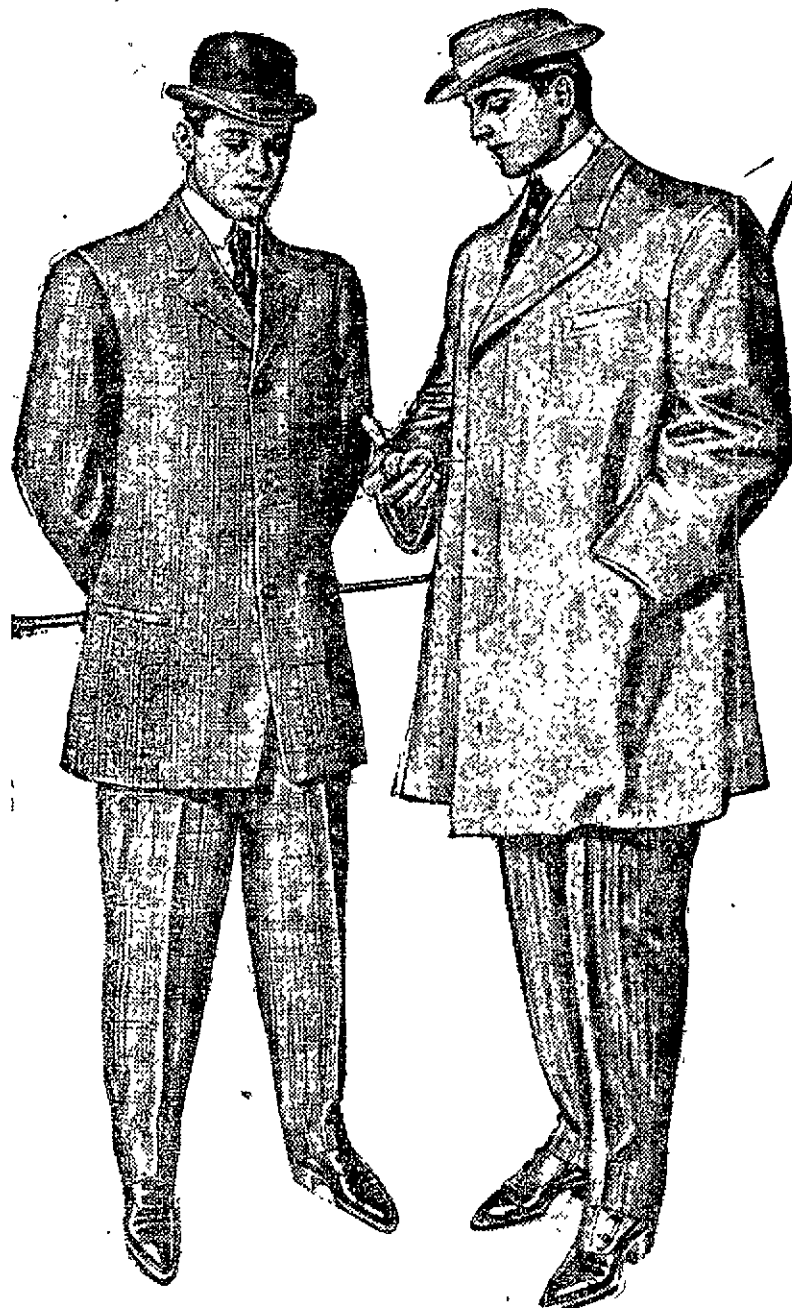

Dr. Miles' Heart Cure

It feeds strengthens and builds up the nerves and muscles of the heart so they can supply the necessary energy.
"Dr. Miles' Heart Cure" is a marvelous remedy. I always use it when cardiac trouble is present. It meets the indications directly and completely.—C. F. F. BUCHANAN, M. D., 486 Mass. ave., Boston, Mass.

PLACE A CHICKERING QUARTER GRAND Where Your Upright Now Stands

Both take up the same space, but the Chickering Quarter Grand has a tone richness and depth that cannot be secured on the upright style of piano.
The Quarter Grand is simply a Chickering Concert Grand condensed. Its tone has less volume and power to better suit the acoustics of a small room. But it has the same superb "tone quality" which has placed the Chickering Concert Grand first among the world's pianos. Wherever an upright can be accommodated the Chickering Quarter Grand will go.

Constitution and One-Man Power.

Mayor Rebyrn of Philadelphia voices an emphatic protest against centralization and one-man power. He says the framers of the Constitution never contemplated a Great White Father in Washington, adding that our system of government forbids the idea of the President issuing orders to Congress and the judiciary.

Mayor Rebyrn is right about the intention of the framers of the Constitution, and also about the limitations and division of governmental powers prescribed by that document. But there is a factor that the fathers of the republic did not take into consideration and which Mayor Rebyrn is inclined to ignore—public sentiment. The Constitution is as wax in the hands of a strong man who has the people behind him. A President of force and determination can do practically anything he chooses if the people do not say anything. Examples of this fact are not wanting in the history of the country. A decision of the United States Supreme Court fell lifeless to the ground because President Jackson refused to enforce it, and the court was powerless to do so without the aid of the executive arm of the government. President Lincoln paralyzed the judicial branch of the government during the Civil War by refusing to recognize writs of habeas corpus issued by the highest court in the land. He imprisoned thousands of men suspected of disloyalty on letters de cachet or a nod to a military officer or secret service agent.

President Cleveland deliberately suspended the operation of the coinage act, and because public sentiment supported him neither Congress nor the courts dared to compel enforcement or bring him to account.

President Roosevelt has overridden the Constitution in several important matters, but popular approval has paralyzed opposition and almost silenced criticism. Although the Senate refused to ratify the San Domingo treaty the President proceeded as if the assent of the Senate was not necessary to make a treaty operative. Although Congress refused to sanction an increase of pension payments the President ordered them to be made, and they were made in direct violation of the provisions of the Constitution. Nobody could stay his hand because public sentiment is the higher law in democracies. It was that law that overthrew slavery and wrote into the Constitution, in violation of its very terms, new provisions.

The malleability of all written laws in a government of the people is one of its dangers and weaknesses. Each extension heretofore of executive power despite the barriers of the organic law has been with good intent and with the tacit approval at least of the mass of the people, but each time a precedent has been created for the exercise of despotic power to accomplish ends inconsistent with the public welfare. What a good man may do for good purposes may be done by a bad man for evil purposes. Suppose some man like Aaron Burr or Matt Quay, for instance, should ride into the Presidential office on a wave of popular excitement. Terrible results might ensue before the masses could be solidified to resist his designs. As long as the people did not rise against him he could go almost anything, make the organic law a dead letter, abrogate the rights of the sovereign States and destroy individual liberty.

The work of completing the new school houses is proceeding in a manner so leisurely as to excite unfavorable comment. Why this extraordinary slowness? The people voted the supplementary bond issue under the impression that the work of completing the school buildings would be pushed with all possible dispatch. It has lagged and dragged as if the completion were being put off till the last possible moment. What influence is holding back the work on the buildings? If it is mere indifference a sharp stick should be applied somewhere along the line. If the work is being purposely delayed to favor somebody, the stick should be applied with greater vigor all along the line. The dilatory way in which work on the school buildings has proceeded and is proceeding is most unsatisfactory to the citizens who voted the money to expedite it.

We note in a number of papers the statement that E. H. Harriman declared in a letter that he could buy Congress and Legislatures. None of Harriman's letters thus far published contain the statement. In a letter to Hon. James S. Sherman of New York, chairman of the National Republican Congressional Committee, President Roosevelt said Harriman boasted in a private conversation with the President of his ability to buy Congress and Legislatures. Harriman denies making any such boast. It is rather remarkable that so astute a man as Harriman should have made such an extraordinary statement to the President of the United States, but Mr. Roosevelt asserts that he did. It is a question of veracity between the President of the United States and the president of the Southern Pacific.

Vice-President Fairbanks is said to be viewing the fight between Foraker and Taft in Ohio with complacent satisfaction. Fairbanks is an Ohioan by birth. He is also a candidate for the Presidency. He has an idea that the fight between Taft and Foraker will become so bitter that neither one can be nominated, and then he expects the mantle of Ohio's favorite son to fall on his shoulders. But there are others. James A. Garfield, son of his father, for instance, and Theodore Burton. However, there are loud calls just now for Roosevelt to be a candidate again, and if he wants the job none others need apply.

It is not surprising that the attorneys for Abraham Ruef should be willing to compromise by sending the proprietor and managing editor of the San Francisco Chronicle to jail. Probably they would not object to Francis J. Heney being included in the commitment.

The constitution just framed for the new State of Oklahoma has only a little more than one-third the number of words in the English language. What a merry time the lawyers will have in fighting over the meaning of that multiplicity of language.

Following Rockefeller's gift of \$32,000,000 to the National Board of Education the Standard Oil Company announces another advance in the price of oil. Mr. Rockefeller's benevolence is rather expensive to oil consumers.

"We want no peddler district in this town," exclaims a Red-jackets paper. What's the need of one so long as the editor of the Citigraph lifts his flaming locks to the breeze?

The laundry strike has brought the clean clothes issue home to every family in Oakland. We are all in the luds, so to speak. We shall have to scrub along somehow.

THE OAKLAND POLICE FORCE WERE ON REVIEW THIS AFTERNOON.

HE DIDN'T NEED CONFIRMATION.

Bishop Talbot, for years the "cowboy bishop" of Wyoming and Idaho, but now bishop of Central Pennsylvania, often found himself faced by unusual problems in his life in the pioneer West. Here is one of the most amusing ones described by him in his recently published book of reminiscences.

At the close of one of his meetings a man who was known as the "colonel" said to him quietly: "I should like to ask you a few questions if you do not object."

"I shall be only too glad to answer them if I can, colonel. Please proceed."

"Well, bishop, do you think my wife is a good woman?"

"One of the best I have ever known."

"Do you think she is a Christian?"

"If she is not I should doubt whether any of us could be so considered."

"Well, now do you think she will make it?"

"How's that, colonel?"

"Do you think my wife will get in?"

Still determined not to appear to divine his meaning, the bishop said: "Excuse me, colonel, but please explain."

"I simply mean this, bishop. Do you think that St. Peter will let the old lady pass through the pearly gates?"

"I have no doubt of it, colonel."

"Then you think that you can guarantee that she will get in?"

"So far as my opinion is worth anything, I cannot for a moment question it."

"Well, then, if that is so, I do not think I shall be confirmed. In fact, I do not see that I need to be. You see, bishop, it is just this way: If the old lady gets in and they lock the door against the old man, she will simply raise Cain until she gets me let in. And she's sure to succeed."

THIS MAN HAD.

Mrs. Susan Young Gates, the daughter of Brigham Young, is a trustee of the Salt Lake University and a lecturer of note.

"Woman must work for her own advancement," she said in a recent address in Salt Lake City, "but she must not selfishly neglect her other duties for this work."

"Is there a man present," a female lecturer once shrieked, "who has ever helped in the slightest degree to lighten his wife's burden? Is there a man here that has ever got up at 5 o'clock, leaving his tired wife to sleep on undisturbed, and, dressing, quietly gone downstairs, raked up the fire, cooked breakfast, washed and dressed the children, scoured the pots and pans, swept the kitchen, scraped the dishes and done all this if necessary day after day without complaint?" The lecturer looked her audience over with disdain. "If there is such a man here," she said, "let him rise. Let the man rise, that all may see and praise him."

"Then a mild little man in a back seat rose timidly. He was the lecturer's husband."

Gambling has been made a felony in Texas, but the reports of criminal trials indicate that murder is still regarded as a misdemeanor in the Lone Star State.

FARMER STUBBINS' JOURNEY.

Old Farmer Stubbins said to his wife, "I'm tired of living this simple life." So he packed up his pants, coat and vest, And took a fast train for the Golden West.

'Twas snowing when Farmer Stubbins went, So with coats and furs his shoulders were bent; The scenery filled his heart with glee, And he said, "Waal now, haint this a spree."

California was reached at last, And the poor old farmer was sweating fast; For he'd left the thermometer 30 below, And here it was sunshine instead of snow.

"It's December!" the farmer cried, "And with those furs I nearly died." "Oh! don't I wish that Sally was here, With flowers every day in the year."

"Gosh all hometick roses now!" The farmer paused and then—"I snow!" "Everything's better than in Maine, You bet I'll never go back again!"

He sent for his wife and little boy, And they came and filled his heart with joy; The boy was happy to see his dad, And to see California both were glad.

Now they lead a happy life, The boy, the farmer and his wife; They live in the State they love the best, California in the Golden West.

Pointed Paragraphs

It is the things we didn't do that we regret most.

A bluff is all right as long as you can fool people with it.

Men with soft snaps don't realize what a hard world this is.

Fools who butt in where angels fear to tread usually get what they go after.

The weight of the transgressor depends on whether he is buying or selling.

Money will do a great many things, but it will not remove the freckles from a man's conscience.

Grass seldom grows under the foot of a man who keeps on the sidewalk or in the middle of the street.

It is much easier to tell people that there is no use in worrying than it is to tell them how to avoid it.

Men are always telling what they would do under certain circumstances, but when the aforesaid circumstances happen along they do something different.

"Some time the world will turn upside down again," declared John Lennon, of Dawson, Alaska, in the Washington Post. "I say again, because I believe that once, perhaps a million years ago, the world turned over, and what is now the north pole was then the tropics. I know many people will scoff at such a proposition, but I think I have evidence sufficient to establish that belief. I have been mining in Alaska for nine years, and in that time I have taken out of the earth, and seen taken out, the bones and skulls of enormous animals, that could only have lived in a tropical climate. They are the bones of mastodons, and are of immense proportions. Think of skulls eight feet broad, with four feet between eyes; tusks eight feet long and grinders forty inches across. This is not a fairy story, but absolute truth, and can be confirmed by many of the men who have dug into the bowels of the earth in Alaska. Some folks have declared that the cold in that country came gradually; but in that case the animals would certainly have migrated to warmer climes. Any one knows that the instincts of animals are strong enough to take them into places of safety. Scientists agree that the earth has shifted from its orbit, and is shifting all the time, and as soon as it loses its balance the world will turn upside down again. That may not come for a hundred thousand years."

"It is not necessary for an American to go abroad to see wonderful sights. We have the land of the midnight sun right here in our own country—Alaska. At Dawson, on June 22, it is possible to see the sun for twenty-four hours. One can read a newspaper at 12 o'clock at night just as well as at noon time. There are many wonderful things up there that the people of the East know nothing about."

ONCE IS SUFFICIENT. "Perhaps you never noticed it," remarked the thoughtful thinker, "but it is true, nevertheless." "What is true?" queried the party at the other end of the conversation. "That a woman never uses her husband's necessarium pipe for a hammer more than once," explained the first.

THE OLD FAMILY DENTRIFICE

SOZODONT

Good for Tulare County.

One of the most creditable publications ever issued in the smaller cities of the interior is a recent issue of the Visalia Times. It is called a "Tulare County Special Edition," and is well worthy of the title. Tulare is a splendid county, a region of fat delta lands and fertile plains—well watered by streams flowing down from the high Sierra, which bounds the county on the east and constitutes a portion of its territory. It is a land of fat cattle, great grain fields, spreading orchards and wide stretches of alfalfa. The mesa region skirting the eastern foothills is the home of the orange. Here are some of the most productive orchards in the State. Tulare peaches, nectarines and apricots are unequalled in size and flavor. The county also contains many fine prune orchards. Visalia, one of the oldest towns in the San Joaquin valley, is the metropolis and seat of government of this favored region. The Times, in its special edition, tells all about Visalia and Tulare county in an intelligent, straightforward way that is in refreshing contrast to the flowery descriptive work—all boom and hyperbole—to be found in many special editions. What the Times says is convincing. It sticks to facts and presents them in a way that interests and carries conviction. This number of the Times is an excellent advertisement for the county and should be extensively distributed abroad.

FOLK SCATHS RACE BETTING

Governor Sends Message to General Assembly and Makes Recommendations.

JEFFERSON CITY, April 9.—The forty-fourth general assembly convened in extraordinary session today. Following the reading of Governor Folk's message, setting forth the object of the call for the special session, both houses adjourned until tomorrow.

An abstract of Governor Folk's message follows:

The forty-third general assembly enacted a law to prevent race-track gambling. Some time last year the state court decided that the law did not apply to bookmakers telephoning their bets out of the state to be registered. This ruling practically nullifies the statute. I recommend to you the enactment of a statute making it a felony to register a bet upon a horse race, either on a blackboard or other substances, or telephone or telegraph, a bet on a horse race to any other state to be registered.

"I recommend that you add an emergency clause."

"We need a law prohibiting brewers and distillers having an interest in saloons and the sale of local option laws for counties, towns and cities should be enacted."

POLICE OF JAMAICA ARE VERY DUTIFUL

If Chicago's chief of police could visit Kingston, Jamaica, he would be surprised at the politeness of Jamaica's policemen. Before he had passed an hour in the city he would be convinced that a Kingston officer could not be excited in courteousness or intolerance. It does not make much difference to a policeman there whether you are a Kingston alderman or a resident of Hackensack, N. J. The chances are that if you are a stranger he will take special pains to set you right. A curt answer would be most unusual. It is most likely that he will explain in detail how and if you will explain to him the reasons why you cannot get lost or make a mistake. Perhaps Chief Collins, of Chicago, would marvel how a man could afford to be so polite when his salary does not exceed \$15 a month. That is about all a Jamaica policeman gets. The police force on the island, as in all British colonies, is under government control. It is composed solely of natives. The commanding officers are the only white members of the force. Strict discipline is maintained and enforced. A Jamaica policeman never loafs on his beat and doesn't smoke cigars or drink. He is always on hand when he is wanted and when asked to do anything does it willingly.

The Jamaica policeman works eight hours a day in two shifts of four hours each. He sleeps in a station and his salary is sufficient to buy clothing and food. Jamaica policemen use no slang and in this they do not differ from the people. Their language is good. A member of the force, whom the correspondent met patrolling the race course refuge camp at 2 a. m. one night last week, seemed anxious to tell about the occurrences on the day of the earthquake.

You should have been here January 14," he said. "Kingston was the most disastrous catastrophe, which leveled the buildings of the business section. A great many gentlemen of high standing and qualifications were and are in the ruins, underneath which more than a thousand people were buried.

"The Jamaica policeman wears a regulation uniform of heavy green woolen cloth with red stripes down the trousers, and he appeared uncomfortable. The mercury was between 85 and 90 degrees.

"What part of your body seems cold?" he asked.

"Well, my hands and face are freezing," was his reply.

There are many opportunities for witnessing the "Jamaican economy" of the people. You can see them arguing with men under the influence of liquor at almost all hours of the night. As a rule they will find out where the neighbors live and take them home. There are no highways in Kingston or in any part of the island. According to information given me by Deputy Inspector General Webster Wednesday the most serious offenders are the negroes. There are some who know their duties and those who don't. They are not allowed to "take cards and spend" in the parks which operate in Kingston street corners.

"The work in Kingston is very hard," he said. "The work in the parks and of course their marriage to pass their lot from one to another and the hard to capture."

EMPLOYERS--DO YOU NEED HELP

The Bureau of Publicity of San Francisco is being flooded with applications for work as a result of advertising it has done throughout the East in upwards of 12,000 papers. Hundreds of these people are now reaching San Francisco and the rigid union rules make it difficult for them to find employment for those who do not belong to unions. Most of these people are glad to live in any California town and those who are in need of help in the various walks of life should place themselves in touch with the Bureau of Publicity, Room 614 Union Trust Building, San Francisco, at once and make their wants known. We make no charge for our services and there are no fees of any kind for supplying help.

LARGE AUDIENCES AT THE EIGHTH STREET THEATER

FLORA ST. IVES
novelty musical artist—the girl with the mandoline.

Manager Hadji of the Eighth street theater is keeping his promise to give his patrons only high class vaudeville acts and it seems every week the program is better, if any such thing is possible. There was an entire change of bill last evening and each of the two performances every seat in the house was occupied. The star attraction is Miss Flora St. Ives, an exceedingly handsome and graceful young woman, who masters the mandolin, banjo and harp in a manner that shows her to be one of the best performers on each of the instruments named seen in this city for a long time—especially the former. "Day by Day" which she plays on the mandolin accompanied by the orchestra takes the house by storm and is beautifully rendered. She certainly makes a big hit and she deserves it, her act being good enough for a theater charging ten times the admission that this house does, showing the enterprise of the management. Oscar Starr who has from Germany appears on the bill as "The strongest man on earth," he certainly earns the title and does some phenomenal lifting, the most noticeable a dumb-bell weighing 250 pounds which he puts above his head with one hand. Miss Mae Keddy earned the warm reception given her and does some exceedingly clever step-dancing—a top hotch in her line. Joseph Fonseca, the favorite illustrated singer renders a new song with his usual fine voice and Morton and Fairfield & Company presents another funny sketch called "Senator McPherson's Dilemma." Mr. Morton is about as good an around comedian as appears in continuous vaudeville; whether in black face, Irish or Dutch characters he is there with the goods and it's a pleasant innovation to witness the ability of a comedian of his class. The Ormsby duo are retained another week and are seen to advantage. The moving pictures are unusually good, there being two sets, His First Ride On a Bicycle, is one of the funniest things thrown on the canvass, and keep the audience in constant laughter every second the picture is being displayed. The same excellent bill throughout the week and the admission only 10 and 20 cents. There is a matinee daily and at least two evening performances.

SAYS SPOUSE HAS DEPARTED FIRE DESTROYS NAVY BUILDING

PHILADELPHIA, April 8.—One of the largest buildings in the League Island Navy Yard, containing the sawmill, joiner shop and pattern shop, was almost entirely destroyed by fire today. The loss is estimated at between \$70,000 and \$100,000.

The navy yard fire company and all the marines and sailors stationed at the yard were called out to fight the flames and assistance was asked of the Philadelphia fire department. Many patterns for the equipment of the navy were burned and it will be difficult to replace them.

Much of the furniture intended for the battleship-Kansas was destroyed. The Kansas was to have been placed in commission within a few days and it is thought that the loss of the furniture will delay the ceremony.

PROCEEDINGS OF THE CITY COUNCIL

DEFER ACTION
ON FRANCHISE

Councilmen May Overrule the Protest of Wood Street Residents.

In the Committee of the Whole of the Council last night the application for franchise on Wood street by the Western Pacific Railway, San Francisco, Oakland and San Jose Railway, Atchafon, Topkapi and Santa Fe Railways was deferred until next Monday night.

Also the application of the Western Pacific Railway and Union Belt Railway on South Seventh street was set for the same date.

President Elliott said that there was a protest filed from property owners on Wood street, and testimony was heard. Whether it was for the best interests of the city to grant the protest, or give the railroads the franchise is the issue. In all probability the householders on Wood street will move from that section. That is the situation, and there is no two ways about it. He would vote to overrule the protest and thought he would vote for the best interests of the city.

Councilman Elliott wants the protestants to be heard and would set a date for hearing. City Attorney McElroy said he had given an opinion that it was mandatory on the Council to grant the applications for franchises on Wood street, but he thought the Council had discretionary power in the matter of hearing the protestants.

GETS RELIEF
FROM COUNCIL

City Fathers Permit Aitken to Drop Unpleasant Committee Duties.

Councilman Aitken last night requested to be relieved from acting on the license committee to which he was appointed one week ago. He declined to act on the committee two years ago but thought he might be able to work in harmony with the committee this season. The same objections are in effect now and he asked to be relieved. His request was granted by unanimous vote of the Council.

CITY DRIVERS
GET A RAISE

Sprinkling Cart Men and Wagons Will Now Receive \$6 Per Day.

Councilman Pendleton last night at the Council meeting called for a resolution that was in the Finance Committee, relative to pay for street sprinkling cart drivers and wagons. The drivers now receive \$4 a day, and they are demanding \$6 a day. He stated it was absolutely necessary to raise the pay or street sprinkling would stop.

The resolution called for payment of the sum demanded, but Everhardt wanted the resolution to include all men furnishing two horses and one driver. Otherwise there would be a kick from those who are getting less than the sprinklers.

Pendleton wanted the committee to investigate this amendment and asked that it be discussed in meeting of the Finance Committee, but Everhardt withdrew his amendment as the street sprinkling measure was an emergency act and had to be taken up at once. The resolution to pay the sprinkling wagon drivers \$6 a day was then passed.

TO CONSTRUCT
BITUMEN WALKS

An ordinance adopted last night by the Council provides for the Board of Public Works to construct bitumen crosswalks on East Fourteenth street from Thirteenth avenue to Twenty-first avenue.

The woman's household cares, Are too great a strain on the kidneys.

Backache, headache, dizziness, Kidney troubles, urinary troubles follow.

An Oakland citizen tells you how to cure them all.

T. H. Wallace, of 115 Eleventh ave., bricklayer, says: "It was so long since I had my first attack of backache that I have forgotten the year it occurred. I was always sure to have a spell when I contracted a cold from exposure to inclement weather or after an extra hard day's work. I had an attack when I noticed Doan's Kidney Pills advertised in the local paper and I went for a box. In a few days the backache disappeared. I will not have the slightest hesitation in recommending Doan's Kidney Pills to any of my friends and acquaintances whom I hear complaining of backache which arises from the kidneys, nor in recommending their work properly."

PLACES VETO
ON ORDINANCE

Mayor Does Not Approve of Measure Prohibiting Coasting.

Mayor Mott approved the following ordinance passed by the Council March 21:

Establishing grades on Bella Vista avenue; authorizing the board of public works to advertise for bids and award a contract for replanking city wharf; changing name of Boulevard Terrace.

The mayor also vetoed ordinance prohibiting coasting on hillside, over and across public sidewalks and crossings of any street in the city.

VETO IN FULL

The veto says: "I return herewith to your honorable body, without my approval, an ordinance passed March 21, 1907, entitled 'An ordinance prohibiting coasting on hillside, over and across public sidewalks and crossings of any street in the city of Oakland.'"

"As to the manner or form in which this ordinance is drawn—the word 'hillside' being an indefinite term, capable of as many interpretations as there might be persons called upon to interpret it, and its somewhat doubtful conjunction with the words 'over and across public sidewalks'—neither the manner of obtaining the results sought nor the objects desired to be secured by the enforcement of the ordinance appear to me apparent."

"As a matter of general principle I do not believe in passing penal ordinances to restrict the liberty of our very young children, thereby subjecting them to arrest, when they have neither the discretion nor intelligence to fully comprehend what will result if they violate the law. I am sure that no mother or father would thank us for passing an ordinance that would result in the arrest of their child in case it should be caught running a coaster-wagon down a slightly inclined sidewalk—yet that is the evident object of this ordinance."

"Or the contrary I believe that we should lend every aid to the young children of our city in their efforts to participate in healthful exercises, and that we should not so curtail their freedom as to keep them in constant awe lest in the pursuit of their youthful pleasures they will violate some penal law of the city."

Through the police department we can caution those children who may be inclined to be a little reckless in this particular pastime, and I am confident that even better results can be obtained in a much more pleasant manner. His request was granted by unanimous vote of the Council.

LOOKING INTO
WATER RATES

Councilmen Who Are Investigating Subject Ask for Two Weeks' Extension.

In the Committee of the Whole of the City Council last night Councilman Everhardt was elected to act as president pro tem. The matter of fixing water rates was taken up and Councilman Pendleton stated that as the Council members were visiting various plants and familiarizing themselves with matters connected with the business of the water company he moved that further consideration of water rates be postponed two weeks and this prevailed.

MAY MEET WITH
NO OBJECTIONS

Councilmen to Take Up Question of Granting Key Route Franchise.

Application of the San Francisco, Oakland & San Jose Railway Company for a franchise on Peralta street between Eighteenth and A streets was set for hearing next Monday night. There is no protest against the application from property owners in the district. Applications for franchises on First street made by the Western Pacific and Union Belt railways, will be set for hearing at the meeting of the Council next Monday night. This action was determined at last night's meeting of the Council.

SEVERAL NEW FIRE
HYDRANTS WANTED

Fire Chief Ball recommended to the Council last night that fire hydrants be placed at the following points: Fifth and Chestnut, Third and Filbert, Third and Chestnut, Fifth and Kirkham, Fifth and Cypress, Fifth and Center, Fifth and Lewis, Fifth and Filbert, Grand and Euclid avenues, Park View Terrace and Euclid avenue, Lennox street and Euclid avenue, Lee and Euclid avenues, Perkins street and Euclid avenue, Staten and Euclid avenues, Bellevue and Euclid avenues, Grove and Fifth-fifth streets, Grove and Fifty-seventh streets, Dover and Sixtieth street, Dover and Povicer street, Dover and Sixty-second streets, east side of Shattuck avenue and Sixty-third street, same avenue and Sixty-fourth street, same avenue and Fifty-sixth, Fifty-fourth streets, Market and Forty-first, Forty-third and Forty-fifth streets.

His request was referred to the Fire and Water Committee.

FAIL TO PRODUCE
SEWER REPORT

Councilman Elliott called last night for the report of Wood-street sewer from the City Engineer, but it was not on hand. The same was requested for next Monday night, when the railroad franchise will come up.

LAY PLAN TO
OPEN STREET

Question of Extending Washington Again Comes Before Councilmen.

When the opening of Washington street from Fourteenth street to San Pablo avenue came up in the Council last night, Councilman Ellsworth wanted it postponed to a future date, it being a question of vital importance to the people of Oakland as it involved a new city hall. He was not sure the ground left after cutting the street through would be sufficient for a suitable public building.

President Elliott favored reference to the people in the way of a bond election for city hall purposes and thought it best to let the citizens determine relative to opening Washington street through property belonging to the people. While opening Washington street would relieve the congestion now on at Fourteenth street, and Broadway, he is not sure the Council has the right to open a street through property owned by the citizens without submitting the question to the people themselves. He favored an election plan that would involve the erection of public buildings and opening of Washington street in one, and moved that the entire matter be referred to a committee to devise a plan that would bring about this result.

Mr. Pendleton wanted an alternative proposition submitted—one of a city hall on the present site without opening Washington street, and another proposition for opening the street. The entire matter was referred to a special committee to consult with the mayor and to evolve a plan along lines suggested by Mr. Pendleton. This committee will be named later.

OFFICERS' PAY
UP TO MAYOR

Ordinance Raising Sergeants' Salaries Passes the Council.

Final passage of the ordinance raising the pay of police sergeants to \$125 a month was called up last night and met with the unanimous approval of the Council. The ordinance is effective when approved by Mayor Mott.

SEWER PLANS
ARE OFFERED

Scheme to Improve Seventh Street Submitted by City Engineer.

In the City Council last night the plans and specifications submitted by the City Engineer and now on file in the office of the city clerk for sewerage Seventh street from Castro to Brush streets were adopted.

Residents and owners on Wayne avenue between Boulevard and Hanover avenues are to be allowed to construct cement sidewalks five feet wide, instead of six feet wide as called for in the regular permit.

OUTSIDERS MAY
FACE TROUBLE

Councilmen Say Connections Are Made With Sewers Without Permission.

Relative to sewer connections made by property owners outside the city it was stated in the Council last night that parties have connected with Oakland sewers without permission and the City Attorney was requested to give an opinion showing where the city stood. Can the city disconnect the property from the Oakland sewers, particularly when connection was made without permission as provided by law is the question asked.

BLOOD GETS SOUR

At this time of year, says a well-known authority, the kidneys become weak, clogged and inactive, failing to filter out the poisons and acids, which sour the blood, causing not only facial and bodily eruptions, but the worst forms of Rheumatism, Nervous and Stomach troubles, Backache and painful, annoying urinary affections.

It is worth anyone's time now, to get from some good prescription pharmacy the following ingredients: Fluid Extract, Compound Karger, one ounce; Compound Syrup Sarsaparilla, three ounces. Mix by shaking well in a bottle and take in teaspoonful doses after your meals and at bedtime.

FILES PROTEST
WITH COUNCIL

Citizen States Reason for Objecting to Change of Street Names.

Following is a protest filed with the City Clerk relative to changing Monte Vista avenue. The matter was not called up in the Council last night, but will probably be heard next week:

"To the Honorable, the City Council of Oakland: I hereby enter my most earnest protest against any change of the name of Monte Vista avenue to Mann street or Woman street, with all respect to the ladies."

"Prior to annexation, the Board of Supervisors unanimously voted to change the name of Rose avenue to Monte Vista, with my consent, and, by a petition of the taxpayers of the district, I decided this public highway to the county for public use. As I understand, a petition to make some such change has been proposed or at least petitioned for."

"To refer to the records of Alameda County Recorder's office, you can ascertain that, in the year 1893, there was filed and placed on record a map showing the exterior lines of the streets and subdivisions of Keller's Rose Park tract, which map shows that the only Monte Vista avenue now in the city of Oakland was dedicated for public use."

I have learned that another tract, which lies a few blocks from my property to the northward, has been subdivided in the interest of those who purchased the land in question from H. M. Sandborn; also, that in their subdivision of that tract a so-called street which might be better termed a blind alley, is proposed to be designated Monte Vista avenue.

"I am also informed that the purpose of this is for an easier disposal at sale of lots in the tract formerly belonging to H. M. Sandborn."

"However, that may be, it appears that a person by the name of Mann, who is the reputed owner of a thirty-foot lot on Monte Vista avenue, is being used as a tool to have the name of the present Monte Vista avenue changed to Mann street, and a blind alley in the former Sandborn tract named Monte Vista avenue."

"Mr. Mann's thirty-foot lot is for sale, which may account for the mill in the cocoanut or the nigger in the woodpile. My home is not for sale. Before your honorable body takes any action with regard to the change of the name of Monte Vista avenue, as it now exists I respectfully ask that you consider that for a number of years the name of Monte Vista avenue has been used by the people of this city. The communication was referred to the auditing and finance committee."

WILL EXECUTE LEASE
FOR TWO YEARS

Lorraine Purney, owner of the property occupied by the city pound notified the Council that he is ready to execute a lease for two years from April 10 at \$75 a month, payable monthly in advance. If not accepted the premises must be vacated at expiration of lease on that date. The communication was referred to the auditing and finance committee.

PERMISSION GIVEN TO
INSURE CITY HALL

By a unanimous vote in the City Council last night the Board of Public Works was authorized to insure the City Hall for \$2500 and its contents for \$2500. The insurance now on the same expires April 24th.

STREET OPENING
SUBJECT COMES UP

In the matters of the opening of the following streets the Committee of the Whole of the Council concurred in the recommendation of the Standing Committee of the Council. Hopkins street from Fourth avenue to Excelsior street, A street along Cemetery Creek from Bay place to Pleasant Valley avenue, Howe street from Moss avenue to Broadway.

A SOUTHERN GENTLEMAN.

At the dinner station where we stopped one day on a certain Tennessee railroad almost the first sight which greeted the eye of those who got off was a rough burial box on the platform, and seated near it was an old black woman with a handkerchief to her eyes. When kindly asked the cause of her weeping she pointed to the box and replied:

"De old man in dar."

"Your husband?"

"Yes, he died two days ago back yere in de kentry."

"And what are you doing with the body here?"

"I wants to bury it up at Charleston, but I haint got money 'nuff to take it on de railroad."

"What nonsense!" exclaimed a man as he came forward. "What's the difference where a nigger is buried? They want her to bury it here, but she won't. She's determined to take it to Charleston."

"For what reason?" asked the passenger who had put all the previous questions.

"Kase, sah, all de fo' chill'en is buried up dar, an' his mudder an' sister, an' de po' ole man will be lonesome down yere."

"What bosh!" growled the knicker.

"Look here!" whispered the other, as he went over to him. "I'd rather be a nigger than a white man to be a white man with yours. She's right. Let the family dead sleep together."

He entered the express office, paid for the shipment of the body, bought the widow a ticket to Charleston, and then dropped a ten dollar gold piece in her hand and said:

"Give him a decent funeral, mammy, and this will put up a headboard to mark the grave."

"May de Lawd bless you for—!"

But he hurried in to snatch a bite to eat. When he was gone I made inquiries as to his identity, and found a man who replied:

"Why, that's Colonel — of Alabama. He 'owned over 300 slaves when the war broke out.'—Indianapolis Sunday Sentinel.

LICENSES FOR
NEW SALOONS

Three Are Granted by the City Council, One to a Chinaman.

The Pierce Grocery Company, of 3060 Sixth avenue, was granted permission by the Council last night to obtain a liquor license.

Leon Aroney & Peter Aroney, of 903 Broadway, were also granted a license. A similar privilege was granted to Fung & Company, 315 1/2 Webster street.

There was objection to granting a liquor license to the Celestial but finally the matter passed the Council by a vote of 6 to 4.

TO EXHIBIT NEW LIGHT.

It is intended to exhibit, on or about June 8, 1907, from Cape Pembroke lighthouse, Falkland Islands, a new white flashing light in lieu of the present fixed light. The new light will show one flash every ten seconds, lasting sixty-five tenths of a second, and the eclipse nine seconds and thirty-five tenths. The lighthouse is to be seventy feet high from base to vane, and is black in color, with one broad white band painted on it. Trinity house, London, will issue further notice before the light is exhibited.

Doing Business Again.

"When my friends thought I was about to take leave of this world, on account of indigestion, nervousness and general debility," writes A. A. Chisholm, Treadwell, N. Y., "and when it looked as if there was no hope left, I was persuaded to try Electric Bitters, and I rejoice to say that they are curing me, and am doing business again as of old, and am still gaining daily. Best of all tonic medicines. Cures indigestion, constipation, 7th and Broadway, and 17th and Washington, Oakland, 50 cents."

Woman Who Lost Limbs Beneath Cars Describes Horrible Accident

The condition of Miss Christina Bergner, who was run over by the Berkeley local early yesterday morning and had both legs amputated, is much improved and the doctors say she will recover. She rested very comfortable last night and is able to talk to the nurse and her mother. The injured woman tells about the accident and says she clearly felt the six cars pass over her legs and could feel the bones being crushed more by each truck. Miss Bergner still occupies a cot in the Receiving Hospital. Her condition is too weak to be moved to her home in the city.

GIANT MUST LEAVE ARMY

Clothes Cost Too Much and
Allowance Is Not Large
Enough.

WASHINGTON, D. C., April 9.—Karl Ludwig William Christian Hugo Muller has had to leave the signal corps of the United States army because he is too big. He stands 6 feet 8 inches in his stocking feet. Therefore his clothes must be made to order and the cost of them eats up his pay, as Uncle Sam does not calculate when he cuts out uniforms in job lots for private soldiers and soldiers on having to make an occasional uniform to order.

Karl's gigantic stature is, apparently, no fault of his parents. They are of medium size. But he has a great-grandfather in Denmark, who was the tallest man in his native land, and to him Muller attributes all his troubles. This great-grandfather's name was Henry Henschelmann and he was a first class man in the Hester Grade, the famous regiment of Denmark.

Muller's father is a German. His mother is a Dane. The older Muller came to this country twenty-five years ago. He was a captain in the east coast of the former army. On coming to America he entered the navy, leaving to enter the employ of the Census at Philadelphia. He is now a construction engineer at the United States navy yard at Washington.

23 YEARS OLD.

Hugo Muller is the young giant with 65 many names is called 23 years old, having been born in New York on June 10, 1882. Until he was 12 years of age his size was normal. Then he began to shoot up like a bean pole, and by the time he was 18 he had become known as the tallest young man in the six New England states. There were men over 21 years old who equaled him in height, but none who were supposed to be still growing could come anywhere near him. At first his parents were surprised at this rapid growth. The other children were normal and the parents did not know what to make of Hugo until Mrs. Muller thought of her grandfather, the Danish soldier. Then they decided that Hugo was a "throw back" and let it go at that.

At 19 years of age Hugo decided he wanted to go into the army. He was too tall for the regular service, but his father, who knows many army officers, got him into the signal corps. Then the boy's troubles began.

UNIFORMS TOO SMALL.

The pay of a private in the signal corps is \$12 a month for the first term of enlistment, which is three years. The clothing allowance of a first-class private, according to the regulation, is about \$13.33 for one enlistment, or approximately \$16 a year. But this calculation is made for normal men. The army gets its clothing supplies in job lots and the biggest ordinary man has no trouble in getting fitted. The quartermaster can always take care of a man who is six feet four inches in height and who weighs upward of 200 pounds, but when a man is turned over to him who stands six feet eight, they are both up against it. This was the case when Muller appeared as a recruit for the signal corps. The result was that all his clothing had to be made to order, according to special measurements. Hugo would not have cared what it cost the government and would not even have minded if the government had not taken on the difference out of his pay.

Muller enlisted on June 7, 1905, and was ordered to Fort Myer, Va., and across from Washington. For two months he received his pay regularly. Then it stopped and Muller got no more money. He inquired about the matter and was told that his pay had been applied to his account for clothing, which was far in excess of the regular allowance. At the end of the first year, according to his officers, he was \$18 behind and his father was called upon for that amount.

CLOTHING BILL.

The calculations were as follows: His ordinary allowance for clothes in a year would be \$12. His pay for a year should be \$156. But he had collected two months' pay, which amounted to \$24. Therefore he was due \$132 in pay. This and the \$12 annual allowance for clothes amounted to \$144. But Muller's father was called upon for an additional \$18, which shows the cost of Muller's clothing for the first year, according to the calculations of the signal officers, to have been \$162. The next year it was not quite so bad, but his father was called on to pay \$12 and again had still received no pay since his last two months' service. The older Muller complained of this and it was knocked off by the signal corps. After a year, after considerable trouble, Captain Muller obtained the discharge of his son from the signal corps. He was asked to make a final statement of \$28 and some cents. This proved the fighting spirit in the old sea horse and he brought the matter before General Greeley. The general offered to waive the amount if the boy was allowed to remain in the regiment. This offer, however, was declined by both father and son, and young Muller is now hunting jobs where clothes will not pay such an important part, but where he can earn for a lot. He is at present preparing to pass an examination to get on the police force of this city, having a bright prospect in view of perhaps being enlisted in the famous Broadway squad of New York City.

MULLER TALKS.

Unlike the young giants in fairy tales, Hugo Muller is extremely tame, taking the greatest possible interest in domestic affairs, including his mother wash and dry dishes. He loves music, plays on the violin with considerable skill, and joins in the singing whenever the opportunity presents itself. For the Mullers are a musical family and they have impromptu concerts almost every evening.

Young Muller loves to dance, too, though it is not often that he has the courage to ask girls to be his partner, and the greatest reason for wishing to be more normal in height, or, as he himself expressed it, "a foot and a half shorter," is that he might indulge in that amusement with more freedom.

Hugo Muller, despite his size, is a young man cool to look upon, with great, laughing brown eyes, dark hair and ruddy cheeks. And, although his measurements are abnormal, they are all in perfect proportion. He wears a blue shirt, a white waist and his weight is over 250 pounds. His great arm around his waist is as long as an ordinary man, measuring 10 inches in length.

As it is to be expected the old adage that smothered stunts the growth of a boy, young Muller is an inveterate smoker, thinks nothing of consuming six cigars in an hour and is never without a pipe in his mouth. He is a moderate eater, preferring all manner of home made delicacies, cakes, pies and candies to the red beef and potatoes which usually form the big man's menu.

BIG "HOTEL SHIP" TO HAVE ITS FIRST TRIP

The White Star line's new hotel steamship, the Adriatic, of 25,000 tons, will make her maiden trip from Liverpool instead of Southampton. She will leave the Harland & Wolff yards at Belfast the last of April and sail from New York for Southampton on May 1.

The Adriatic will begin the new mid-weekly service from Southampton on June 7. On each sailing day a special express train will leave Waterloo station London, over the London & Southwestern railway, with second and third class passengers at 7:30 a. m., and another train with sleeper passengers at 8:55 a. m. The steamers will sail at 11 a. m.

In like manner special trains will connect at Cherbourg for Paris, East-bound steamers will touch at Plymouth to land mails and proceed to Cherbourg, where passengers will be put ashore by the Birkenhead ferry steamer, which is to be rechristened. Then the White Star steamers will go to Southampton. From the New York World.

JUDGE DUNNE WILL NOT STAND FOR INSULT

COURT SILENCES
HENRY ACH IN
THE RUEF CASE

Statement That Prisoner
Was Fugitive Was Cause
of All Trouble.

SAN FRANCISCO, April 9.—Don't ask that question any more or any question like it bearing on the subject, as your understand it," said Judge Dunne in the trial of the Ruef case shortly before noon today.

The order was directed to Attorney Ach, of counsel for the defense in examining Talsman Otis as to his qualification to serve as a juror in the case.

The question to which the court objected was one which intimated prejudice on the part of Judge Dunne against Ruef and was as follows:

"Was there anything said in the court on the day the witness declared that Ruef was a fugitive from justice, to create in your mind the impression that the court was prejudiced against Ruef?"

Judge Dunne leaned forward over his desk and in an earnest but not excited manner admonished Ach in the manner indicated in the opening paragraph.

"I will say," said Ach rising, "that your honor was incorrectly formed on this matter and I want to set your honor right at once."

"I have no desire to hear any more on the subject. I am already well informed, but don't ask that question any more with your conception of the subject."

"What am I to understand," said Ach, "Am I to understand that I may not ask this witness or any other witness that he would or would not be influenced by a display of prejudice against the defendant on the part of the court?"

"That's exactly what I mean," said Judge Dunne.

Ach took exception.

JUDGE DISPLEASED.

For several days past it has been evident that Judge Dunne has been displeased with intimations by Ach

that the court is prejudiced against Ruef. In fact, this belief on the part of the defense, has been shown in repeated questions to witnesses as to whether they would be able to give the accused a fair trial in the event they should discover that the court was prejudiced against him.

Judge Dunne took no exception to this slur until yesterday, when Ach was asking for a continuance of the case on the ground of his sickness.

Judge Dunne wanted to know if either of Ruef's counsel could not go on with the case.

Ach said that he had been appointed to select the jury.

Judge Dunne said that he understood that other members of the defense's counsel had taken part in the examination of the witnesses and that he understood it was Judge Fairall who had suggested the question as to the effect the alleged prejudice of the court would have upon jurors.

He further stated that he never knew of such a question being asked in court save in Judge Nutter's court in Stockton where it was asked by order of the jury.

ACH'S EXPLANATION.

When Ach rose this morning and told Judge Dunne that he had been misinformed, it was with reference to the statement of Fairall having suggested the insulting line of inquiry. He was going to couple with it the statement that he himself had used the same question in the Epiphany case, but the court shut off the discussion.

Later Ach said the united counsel of Ruef had framed a question touching the inference of prejudice on the part of the court and the effect it would have upon the jurors, and asked if he would be permitted to ask it.

The court granted permission. The defense objected and the objection was sustained.

Saved From Noose
by Leniency of
Gov. Folk.

LIBERTY, Mo., April 9.—When told in her cell last night that Governor Folk had commuted her sentence of death to life imprisonment, Mrs. Aggie Meyers smiled and then laughed for joy.

"I am so grateful to the Governor," she exclaimed. "Of course, I have been hopeful of getting a new trial and I feel sure if one could be obtained my innocence would be proved next time, for I am innocent. I cannot give up hope that my lawyers will yet be able to do something for me in that way and the fact become known to the world that I am not guilty of the crime charged against me."

KLEPTOMANIAC ROBS
PARISIAN LIBRARY

"He would have carried off the towers of Notre Dame." Such is the comment made by the physicians who attended M. Thomas, the spoliator of the fine library of the Ecole des Beaux Arts, during the last few months of his illness. In other words, M. Thomas was "irresponsible," he was, as the physician alleges, suffering from neurosis, a disease which, as all the world knows, drives one's power of will, leaving the victim helpless before temptations of a special order. The temptation in M. Thomas' case was his passion for old books and old engravings. It was a case for the doctor rather than for the police.

The physician gives an illustration of the extent to which, as he alleges, M. Thomas' mind. M. Thomas was employed some time ago to execute some repairs at the Archives. He came across a fine old piece of ironwork—an ornamental screen for a doorway.

M. Thomas, who died a few weeks ago, was the architect of the beautiful facade of the Grand Palais, which all the world admired at the time of the Centennial exhibition. When a student he won the "Prix de Rome." He was an expert for his art, and deeply versed in its history. He was an officer of the Legion of Honor.

M. Thomas did not sell any of the volumes and engravings he extracted from the library. They were placed in his own collection. It was only when Mrs. Thomas died a few days ago, when M. Thomas gave a few days ago, offered some books and engravings for sale to a dealer in rare editions that the loss was discovered. Mme. Thomas and her four children were in need, and her only resource was to sell her husband's library. The bookseller, finding in the collection some engravings bearing the official mark of the state, at once communicated with the under secretary. Inquiries were started on the instant. They show that twelve hundred engravings had disappeared, as also nearly all the costly and rare volumes of the Les-souffache collection in the library.

The total loss up to date is variously estimated at from \$50,000 to \$60,000.—Paris Letter to the London News.

PENNIES TO INCREASE
CHURCH FUND

VC BMC GFKWKQY JPPJP JP JP Members of the Presbyterian church at Sayre, Pa., have adopted a novel method by which to raise money for the erection of a new church at that place. The idea is an exemplification of the old adage, "Take care of the pennies and the dollars will take care of themselves."

The object is to gather a "mile of pennies," and to do this each member has been provided with a narrow strip of paper a foot in length. The obverse of the strip is divided into spaces just large enough to hold a penny each, and is covered with glue. The reverse side contains a description of the plan. This description contains an announcement to the effect that "Your foot brings us one step nearer the goal. If you miss your foot we come short. Not a case where a miss is as good as a mile." Each strip of paper will hold exactly sixteen pennies, and the members of the congregation are urged to stick their spare pennies on the strip of paper, and when they have accumulated a foot of pennies to turn them over to the treasurer of the fund. It is calculated that when the mile of pennies has been collected the sum of \$344.88 will have been added to the building fund.

Pennies are likely to become a mighty scarce article in Sayre within a few months unless the treasurer of the fund sends them back into circulation again immediately after their receipt by him, for it would be a rather serious problem to collect \$4,488 pennies in a community of about 10,000 population unless they were used over and over again.

TEN-HOUR DAY IN GERMANY.

Whereas, in the seventies of last century, the twelve-hour day was the rule in the building trade in Germany, there were in 1895 already 416 towns with a ten-hour day, 103 with ten and one-half hours, 818 with eleven hours and 85 with more than eleven hours. In 1925 there were 247 towns with a nine-hour day, 228 with nine and one-half hours, 744 with ten hours, 3,483 with ten and one-half hours, 3,824 with eleven hours, and only 147 with over eleven hours.

HE WILL VISIT HIS
OLD IRISH HOME

REV. J. B. McNALLY.

Father McNally Is to Take
Vacation After Twenty
Years of Service.

Reverend Father McNally, pastor of St. Patrick's church at West Oakland, will leave for the east and Ireland tomorrow morning.

Father McNally has been pastor of St. Patrick's church for the past twenty-eight years. He started the parish in West Oakland and has met with remarkable success in the western district of the city. Father McNally is probably the best known priest in California. He has a wonderfully large following in Oakland and Alameda county.

Father McNally goes to Europe in order to secure a much needed rest after years of hard service and has labored twenty years without a vacation. In speaking of his trip abroad to a TRIBUNE reporter, Father McNally said:

"I will leave tomorrow morning on the overland train and go directly to New York. I will radiate around the eastern states for two or three weeks and will sail on the Teutonic the first of May for Queenstown, Ireland. Arriving at Queenstown, I will go direct to Dublin and will visit my relatives and friends in the various parts of Ireland. I have a great many friends in the old country."

"I was born at Lehighin Bridge, County of Carlow. I was raised and educated in the County of Kilkenny and finished my education for the priesthood in Carlow college, County Carlow. After graduating from college in 1870, I came direct to San Francisco where I began my duties in the priesthood as curate in St. Mary's Cathedral. Subsequently I was in the parish of San Rafael. From San Rafael I went to Tuolumne and Mariposa counties and then to various churches in San Francisco."

SENT TO OAKLAND.

"From there I was transferred to Santa Barbara county where I took charge of a Catholic college for a time. While in Santa Barbara county I built three churches within a radius of fifty miles from the college where I was teaching. After that, I was transferred by the archbishop to East Oakland. While officiating at the East Oakland church, I built a Catholic church in Redwood Canyon. While at St. Anthony's, I also took a large part in erecting the convent and opening the parochial schools in that district."

"From East Oakland I was transferred to West Oakland where I became the pastor of St. Patrick's church, which church was erected through my efforts. I went to West Oakland with a dollar and a half in my pocket and during my years of service there I have had erected St. Patrick's church, the Auditorium which adjoins the church, the convent school, the brothers' school, the parish home of fifteen rooms and the sisters' new convent on the corner of Tenth and Pershing."

BUILDING CHURCH.

"I spent three years besides this work going around through the archdiocese assisting the late Archbishop Alemany to collect the money to purchase the

ground which the present St. Mary's cathedral stands. While all this was going on, I was working my own parish and building it up."

"I opened the parochial schools in West Oakland under the Brothers of St. Mary's college and the Sisters of St. Joseph from St. Louis, the first Monday in January, 1884. Meanwhile, I also established the Catholic Mutual Beneficial Association which, while it lasted, gave about a quarter of a million to persons who were much in need of it."

CLOSE TO ARCHBISHOP.

"For many years, I was president of the Catholic Total Abstinence Union of California and always in the closest alliance, not only of filial union, but real friendship to his grace, the most reverend archbishop."

The archbishop expressed himself as delighted to be able to afford Father McNally a respite from his labors for a while that he might come back refreshed and with renewed energy to wind up his honorable career in the glorious, loyal priesthood of his religion.

"This fact was brought to light yesterday when the grand jury turned its attention to the corruption that exists in the Police Department. A searching inquiry into the affairs of the department was instituted and startling developments are expected."

For twenty days in February, 1906, these unlawful machines prospered, to the profit of the owners. Fred Hilbert and the administration. Then District Attorney William H. Langdon stepped in and blocked the game of graft by driving out the machines under statute.

The array of witnesses summoned by the grand jury yesterday to assist in uncovering this administration graft included gamblers, a policeman, slot machine dealers, a former president of the Board of Police Commissioners and Hilbert himself. The gamblers were the famous friends of Jeremiah H. Dineen—Ned Langan and

Governor of Kansas Gives
Freedom to One Who
Killed Four.

TOPEKA, Kan., April 9.—Governor Hoch today granted conditional pardon to Willie Sells, the quadruple murderer, who has been in the Kansas penitentiary since 1888 serving a life sentence. The principal condition of the pardon is that Sells must not take the lecture platform or in any manner exhibit himself for the purpose of making money. Governor Hoch promises to find Sells a home and help him start life anew.

The murders were committed on March 7, 1886, evidently for the purpose of robbery. Sells, aged 45, a farmer and school teacher, lived near Erie, Kan., with his family, the wife, a son Watty, 19 years old, a daughter, Ina, 15, and a son, Willie, 16 years old.

BRUTAL MURDER.

The family were murdered at night, all four having been cut and slashed in a horrible manner. Willie stoutly maintained his innocence and declared that the murder had been committed by a man who had attacked the members of the family while they slept. He had awakened while the man was finishing his work and had chased him from the house. He declared Sells his attorney argued that it would have been a physical impossibility for him to have committed the crime, as he was stocky and developed no more than a boy of 13 years.

Union Pacific Blocked In
Wyoming—Train Wrecked by
Broken Rail.

CHEYENNE, Wyo., April 9.—A mud slide occurred at the east portal of the Aspen tunnel, east of Evanston, on the Union Pacific railroad last night and traffic between Green River and Ogden is at a standstill.

The track is covered to a depth of twenty-five feet for a distance of nearly 100 yards, and it will be many days before the blockade will be raised. Passengers caught in the blockade were transferred over the mountain in wagons. Meanwhile passenger trains will be run between Green River and Ogden over the Oregon Short line.

A special train, running west from the tunnel, was wrecked by a broken rail. Engineer Burton was hurt fatally and a number of passengers were injured slightly.

FORMER SENATOR BARD
IN SAN FRANCISCO

SAN FRANCISCO, April 9.—Former United States Senator Thomas R. Bard of Eugene, Oregon, came up from the southland last night accompanied by Mrs. Bard and Senator Bard's trained nurse, who has been in attendance upon him ever since he was badly injured in an accident months ago. Mr. and Mrs. Bard came round by way of Sausalito and Berkeley, and here about 6 o'clock. They have rooms at the Hotel Imperial and will remain several days and then return to their seashore home. S. B. Bock, capitalist from California, who was one of the owners of the Hotel del Coronado, was also a late arrival from the southland. He registered at the St. Francis.

ENORMOUS PROFITS FOR GRAFTERS IN
THE NICKEL-IN-THE-SLOT BUSINESS

Grand Jury Finds It a Very Hard Matter to Get at the
Bottom of the Big Machine Graft in
the Old Days.

J. A. Peters—both of whom have operated gambling houses in San Francisco for years. The slot machines, which run illegally, although with the consent of the Board of Supervisors, for twenty days in February, 1906. They were driven out by District Attorney William H. Langdon. Fred H. Hilbert received as his share of the profits a full 50 per cent, according to evidence in the possession of the graft prosecutors. Business was so good during these twenty days that the proprietors of the Hoffman Cafe were paid \$100 to allow several of the machines to be placed in their barroom.

Number of machines operated. . . 260
Profit on each machine per day (estimated) . . . \$10
Total profits for twenty days \$26,000
Amount Hilbert received . . . 26,000
Hilbert's disbursements . . . (?)
One-half of the profits derived from the unlawful slot machines that operated in this city until driven out by District Attorney William H. Langdon went into the pocket of Fred H. Hilbert.

"This fact was brought to light yesterday when the grand jury turned its attention to the corruption that exists in the Police Department. A searching inquiry into the affairs of the department was instituted and startling developments are expected."

For twenty days in February, 1906, these unlawful machines prospered, to the profit of the owners. Fred Hilbert and the administration. Then District Attorney William H. Langdon stepped in and blocked the game of graft by driving out the machines under statute.

The array of witnesses summoned by the grand jury yesterday to assist in uncovering this administration graft included gamblers, a policeman, slot machine dealers, a former president of the Board of Police Commissioners and Hilbert himself. The gamblers were the famous friends of Jeremiah H. Dineen—Ned Langan and

them down and as a result the owners were arrested. Schultz swore to the grand jury that he had never paid a single penny to the Police Department for protection.

HILBERT DENIES CHARGES.

Fred H. Hilbert was on the witness stand for some time, but met all the questions of Assistant District Attorney Henry with denials. He denied that he had assured Schultz of his ability to secure the repeal of the slot-machine ordinance.

WOMAN KILLS HUSBAND
WHILE TALKING AT PHONE

She Had Been in a Sanitarium and Is
Not Considered Responsible for
Her Actions.

SALT LAKE, April 9.—W. T. Hooley, a mechanical engineer employed by the United States Mining Company at Bingham, was shot and killed today by his wife at their home in Waterloo, a suburb of Salt Lake. Mrs. Hooley fired two shots at him as he was using the telephone, one taking effect in the neck and the other in the heart, causing instant death.

Mrs. Hooley had been under treatment for melancholia several years ago at a private sanitarium. Later she had shown symptoms of a return of the malady. After killing her husband she went to a neighbor's and told what she had done. Within two hours a deputy sheriff had taken charge of her and had summoned a commission to inquire into her sanity.

"FINEST" ON PARADE FOR
THE ANNUAL INSPECTION

Freely Applauded Along the Line of
March—Reviewed by Mayor Mott
and Guests.

Annual inspection of the Oakland police force is on this afternoon. This function is one where members of "The Finest" appear at their best, everything spick, span and clean, and as they march down the thoroughfares make a showing that is a credit to the city, and heads of the force.

At 2 o'clock this afternoon the patrolmen assembled at police headquarters, where they were formed into six companies. Captain Petersen was in command of the first company, Captain Lynch with a second, and these were followed by each of the four sergeants commanding companies.

Heading the column was the Fifth

Infantry Band, and the two battalions marched down Fourteenth street, swinging into Clay street, where they passed in review before Mayor Mott, Chief Wilson, members of the police board and of the City Council.

After review the two battalions were put through a drill and manual of arms. That Oakland has a well-drilled police force was shown in the drills, their work was prompt and excellently executed.

After the drill the column was reformed and marched through Thirteenth street to Broadway, to Eighth, to Washington, thence to police headquarters. The streets were lined with people whose remarks as the officers passed were favorable.

by closing the circuit, and if the signal be at danger it automatically shuts the engine throttle and throws on the brakes. It is set a little beyond the danger signal, so that if the engineer has obeyed the signal it has no effect. If he has run past the train is automatically stopped. With this device, which shows every time such an automatic stop is made, in other words, how often the engineer has gone by his signals. It is a mechanical "surprise test." This recording apparatus is under lock and key and is opened only by the inspectors at the end of the run.

NOISELESS SCREAMS.

Edyth—"Jack Higgins actually had the impudence to kiss me last night." Mayme—"The ideal! Of course you tried to scream?" Edyth—"Yes—every time."

"I see they have decided against the spiritual possessions of dogs by weighing the dogs' bones." "Why so?" "Haven't they souls among them?"—Baltimore American.

AUTOMATIC STOP FOR
FAST MOVING TRAINS

On the subway in New York city, and on the Boston elevated, operating practically all the interurban service of that city, there is now, and for some time has been, in use a simple mechanism, a mechanical trip, by means of which, when an engineer runs past a danger signal, the motive power is shut off and the brakes are set automatically. This is what is known as the Klansman stop. It has been highly successful and has permitted much safer and closer running of trains than had theretofore been deemed possible. It is a practical and demonstrated success.

Its inventor has likewise developed an electrical device of the same nature and this is now being tried by some of the more steam roads. It is extremely simple. It consists merely of an inner guard rail about 120 in length, forming part of an open circuit in connection with the ordinary block signal. Proceeding from under the engine is a heavy steel arm strong enough to resist all breakages and fixed or a stiff, but sufficiently flexible spring, so that it may be knocked about without danger. The arm extends along the guard rail as the engine passes over it, there-

INSTITUTE IN SESSION NOW AT SAN LEANDRO

Organization Effected at the Methodist Church Yesterday Afternoon--Contest at the Town Hall.

SAN LEANDRO, April 9.—The Women's Christian Temperance Union met here yesterday afternoon and opened their annual institute in the Methodist Church.

The cozy little church was very handsomely decorated for the occasion with an abundance of flowers and foliage, daintily twined around the platform. A large picture of Mrs. Frances Willard occupied a conspicuous place in the arrangement, just above a board of "Breath of Heaven," while the reading desk supported a great bunch of white gill flowers, and the railing was clothed with foliage, studded with the blossoms of white stocks, Easter lilies and yellow Lady Banksia roses.

Mrs. Woodman, who wears the three-fold honors of vice-president of the State organization and president of the county and local organization, called the institute to order and with her fellow laborers in the temperance cause devoted the afternoon to routine matters, and to preparations for the medal contest in the evening.

MEDAL CONTEST.
These medal contests originated with the late William Jennings Demorest, husband of the celebrated modiste of that name, whose fame in America as the designer of fashionable gowns and millinery rivaled that of Worth, in France. Being a great advocate of temperance he believed that the best way to instill its principles into the minds of the rising generation would be by means of oratorical contests, stimulated by the award of medals to the victors. In this work he spent some \$50,000 during his lifetime.

After Mrs. Demorest's death the W. C. T. U. took up the idea and had medals of their own struck off. These are now used in most cases, but it sometimes happens that a supply of the Demorest medals can be obtained.

and then they are also used. For the dissemination of knowledge upon temperance matters the W. C. T. U. Educators or Reciters, based also upon the Demorest idea. After careful study of these, the members of the different classes (five in all) prepare their own thesis and, whenever institute meetings are held, enter the lists as candidates for honors in the medal contests.

At last night's tourney ten contestants appeared in fighting trim and tried their lances before a large and interested audience. Of the ten, five were residents of this city, one of Hayward, two of Elmhurst and two of San Lorenzo. Prior to their appearance on the platform, slips were passed to three judges, unacquainted with any of the contestants, upon which to check the percentage of merit in the several speakers. These three judges were appointed without the knowledge of either of the others, and, located in various parts of the hall, marked judgment on their slips upon the following points: Memory, articulation, voice, gesture and general effect. The candidates were known by numbers only and at the end of the contest the judges met for the first time, looked up their percentages, the aggregate of which, divided by three, decided the winner.

MEDALS.
Silver, grand silver and gold medals are the ones usually competed for in the local institutes. It is only at the State and National institutes that the grand diamond badges are ever competed for.

Today's proceedings will be largely in the nature of a platform meeting. The subjects to be discussed will include "The Press, in relation to reform in yesterday's TRIBUNE." Invitations have been issued to all of the county editors to address the meeting on that subject.

"And why not, my son?"

"Because I'd always be hungry. The rest of the kids would clean the table off before I got through with that one mouthful."

MARK TWAIN'S ACQUAINTANCES.

We had recently arrived in Berlin, and had begun housekeeping in a furnished apartment. One morning at breakfast a vast card arrived—an invitation. To be precise, it was a command from the Emperor of Germany to come to dinner. During several months I had encountered society on the continent, men bearing lofty titles; and all this while Jean was becoming more and more impressive, and, as it were, more and more real. When it reached Jean she exhibited excitement and emotion, but for a time was quite speechless; then she said:

"Why, papa, if it keeps going on like this, pretty soon there won't be anybody left for you to get acquainted with but God."

It was not complimentary to think I was not acquainted in that quarter, but she was young, and the young jump to conclusions without reflection. From Mark Twain's Autobiography in the North American Review.

CALLING THE TURN.

"I suppose," said the city girl, who was passing a week in the country, "that you know all the different flowers."

"I reckon nobby I do," replied the old farmer.

"What does a forget-me-not look like?" queried the girl.

"Oh," replied the horny handed son of toil, "it's just a ordinary knot in a string th' de woman ties around my finger when I go t' town an' she wants me t' git sunthin' fer her."

OAKLAND'S GOOD SHOWING WITH ANGELS PLEASES FANS

Van Haltren Has Gathered Round Him Bunch of Good Talent and Should Make Good Fight This Year.

By T. P. MAGILLIGAN.

Guess Oakland's got a bush league team in the Coast League, eh? They've got a bunch of good talent gathered round Van Haltren, and they should make good fight this year.

Every one who saw Los Angeles in their preliminary work picked that team as the sure winners of the Coast League pennant this season. They didn't give poor Oakland a look-in. But such are the peculiarities of baseball and fate that the same despised Oakland team has a better chance to win the pennant than the Los Angeles team.

Van Haltren has gathered a good team and the Oakland fans should support and cheer it. They are likely to win the pennant this season, and if they do it will be a good thing for Oakland. It will give the city some much needed cheering.

Let's all go out and shout for Oakland. And while you're shouting it will be good to remind you that you will help the Oakland team to win the pennant.

Let's all go out and shout for Oakland. And while you're shouting it will be good to remind you that you will help the Oakland team to win the pennant.

Van Haltren has gathered a good team and the Oakland fans should support and cheer it. They are likely to win the pennant this season, and if they do it will be a good thing for Oakland. It will give the city some much needed cheering.

JEFFRIES' PROPOSED CAFE, AS CONCEIVED BY CARTOONIST CASEY.

FIGHT PROMOTERS ARE UP IN THE AIR OVER PERMITS

Action of Supervisors Has Given Fight Game in City of San Francisco a Setback—Gossip.

BY EDDIE SMITH.

As was expected, the Supervisors of San Francisco set all things appertaining to pugilism in the metropolis of the Golden West flying gaily west yesterday, and the promoters of both amateur and professional shows are as much in the air as to the chances of the game thriving here as the people who patronize the sport. It was expected that the city fathers would not give any of the administration men permits for they had said so before. The Manhattan Club management was supposed to be up close to the members, however, and even if they did not grant them a permit for the coming year it was thought that they would allow them to hold their show that night. They turned the request down, however, and now Ed Nolan, who was the chief owner of the club, is very much in doubt as to his ability to land a permit when the city fathers finally give them out.

It was definitely settled that the board took the twenty-three sign on Willie Davis and forced him out of the game and reinstated Alex. Gregaris, the old-timer who originated the four-round game in his old club rooms on Sixth street. It will be remembered that I told of Gregaris visiting Heney and being escorted with him for an hour or more last Friday afternoon. At that time it was rumored that Alex would receive a permit for an amateur show, but it was not supposed that he would be able to obtain a permit for professional shows, as he does not stand any too well with the present administration. The granting him such a favor must be construed as a fact that Heney will have something to do with the favors granted by the Supervisors. Over twenty requests for amateur permits were sent to the board and of this number eight will probably be selected.

Billy Roach has taken advantage of the amateur situation and has made a bid for the show that was to come off at Dreamland Pavilion to take place at the Colma Club after the postponement from next Friday to the following Tuesday night.

Roach is certainly entitled to a deal of credit for the persistence he shows in trying to make the old pavilion over

the county line pay, but in this venture he will find that as before it takes a mighty good card to pull the fans as far away from home as the Colma Pavilion. It is proposed that the four-round series be six rounds instead of four, thus giving the fans a better chance to judge the respective abilities of the men. This will hardly do, for if the game is reopened in Frisco, which it surely will be, the boys would then be unable to again compare the four-round series with the six-round series being offered the four-rounders is almost too steep for the Colma Club to stand. The purses for the Manhattan show, which coach is bidding for, will run up to about six hundred dollars, and the other expenses would run the amount considerably higher, so it is easy to see that if the Colma Club cannot draw a thousand dollars for a professional fight it has little or no chance of making the amateur game pay. The pavilion is too far away from the city and as long as the game is running in Frisco the fans will have about as good a long distance to see a scrap.

Word has been received that Bill Squires is in Honolulu and that he will be in the land of the free some time next week. Alameda sport is rife as to who the Antipodean is doomed to meet. Some of the sport writers are again trying to figure on the chances of a Jeffries-Squires match, which must be very disgusting to the fans. When Squires lands and the fans get a look at him they will uniformly ridicule the idea of his meeting the big fellow before at least showing us what he can do with some of our lesser lights. For myself I am perfectly willing that he should get all that is coming to him in the way of a match and in fact hope to see him tangle with Burns or O'Brien at the earliest opportunity. He is a real champion of a foreign country and is entitled to all the credits due a champion. Before witnessing another Monroe affair we want to be shown. The puncture of the Nevada big purse balloon will force him to either fight for a percentage or a purse which will be considerably smaller than the wild offers that have been fired across the pond and may prove a great disappointment to him.

ALBERT MUNN INELIGIBLE FOR BIG MEET AT BERKELEY

Crack Athlete of the Oakland High School Fails to Pass Educational Requirements and Cannot Compete.

Albert Munn, the crack athlete of the Oakland High School, will not be able to compete in the academic field day at Berkeley on Saturday. Munn has not been able to fill the scholarship requirements that would entitle him to enter the lists. As a consequence of Munn's ineligibility, Oakland's chances to win honors next Saturday will be greatly weakened. He is easily the best point guard in Oakland, and with him the Oakland High School can hardly be expected to make much of a showing.

Munn is a star athlete, in fact he has been the sensation of the athletic

season. His versatility has enabled Oakland to win many trophies, and he has captured the prize for high individual honors himself.

The recent dual meet between Oakland High School and the High School of Los Angeles. He lowered the world's interscholastic pole vault record. He took six firsts at Los Angeles, and made the Los Angeles athletes look like plucked money when stacked up against him.

The loss of Munn to the athletic team of the Oakland High School is a sad blow to the athletes of that institution of learning.

Sportman's Niche

By T. P. MAGILLIGAN.

THAT baseball players, as a rule, care less for the conveniences and comforts of the patrons of the game than do any other class of people who cater to the public goes without saying.

Ordinarily the ballplayer does not care how long he delays a game. He would just as soon finish it up in two hours as an hour and a half.

Last Sunday there was a case in point. Mohler continually delayed the game by kicking. Mohler or no other man in the league should be allowed this privilege. If the patrons cared to hear oratory they would like to make their wants known and some amusement company would cater to their desires by getting Dolphus Michener or Bourke Cochran to appear at some luncheon.

But at a ball game these embryonic Delanases and Cochranites should be cut out.

The game's the thing. Cut out the talk. Get busy. Try and cut down the playing time. The players should be made to move rapidly.

By strict discipline, Ben Johnson built up the most powerful organization in the Los Angeles area. He made the Los Angeles athletes look like plucked money when stacked up against him.

The writer would like to see some feather-headed ballplayer jump around in midair while Silk O'Loughlin, or Jack Sheridan or Tommy Connolly was umpiring. He'd get his. And if the player should happen to know it the crowd doesn't pay to hear him gabble or make a monkey of himself. The game's the thing.

ENGLISH boxers have some use after all. Jack O'Brien made a reputation knocking out just such dubs as Jack Palmer in England before he got recognition in this country.

ON the dope of most of the scribes there will be four pennants this year in the Coast League. We're willing to take our chances after those two wins at Los Angeles.

PORTLAND has a player named Pearl Casey. Oh, frizzles and charlotte russe.

Governor Higgins of Rhode Island declares that he proposes to stop fighting in that State. First time we ever knew that there was room enough in little Rhode to pitch a full-sized ring.

LISTER at New Orleans was a hot tip last week.

A chess tournament has been proposed for Harvard. About the only place the game has a chance to catch on.

CATCHER BRENNAN of the New York Giants has invented a shin guard for use while he is working behind the bat. Most catchers prefer to use their hands when catching a ball.

Many a minor leaguer, who went South with a major league team in Pullman palace is thankful that there are convenient water tanks where the cattle trains stop, coming back from Southland.

SOME players think that the more fault they find with an umpire the better chance they have to advance in their profession. These players never saw a Keeler in action, and about as near as they will ever come to it is looking on the sport pages of the various dailies.

The megaphone kid was out last Sunday and he boomed things along neatly.

ROOT for Oakland. They've got a team worth rooting for this season.

Guess the fans are sorry that Ed Walker is going to give them a chance to see Oakland play at home this summer.

FOOTBALL is the place for kicking, not baseball. Some of the players ought to learn this lesson.

TURF INTERESTING NOTES ABOUT RACING MATTERS GOSSIP

By LEE DEMIER.

Ideal racing conditions and an interesting program attracted a large gathering of sport-lovers to Williams Park for a Monday. Runaway races were the order of the day, as in the majority of the events, the horse to get away in front tow-rope his field all the way. Business in the betting market was brisk and the talent and bookies broke about even.

Keane Bros.' chestnut gelding Raleigh, at the juicy odds of 10 to 1, annexed the two-year-old sprint, which was first on the program. The winner assumed a commanding lead early in the running and was never headed. Heather Scott, after meeting with considerable interference, outgamed Hussy, the favorite, for second position. Balanda, after such a clever showing last out, ran a disappointing race.

Confederate was much the best in the final race and had to be to win, as he met with bad racing luck throughout. Money was snafu for the winner. Shady, the favorite, was a victim of a poor ride.

The second favorite of the day to score was Duffin in the mile and one-sixteenth affair. The gray horse forced the pace all the way and won as he pleased. Omaha was a victim of a poor ride.

EVANGELISTIC MEETING HELD

Golden Gate Church Unite and Many Attend Specially Arranged Services.

Members of several churches in Golden Gate joined, last night, in Evangelistic services in the Golden Gate Presbyterian church.

Services were conducted by the Rev. John N. Steele and Mr. Paul R. Hoppy, evangelists, who have been working under the general Evangelistic committee of the Presbyterian church, for four years.

The evangelists are friends of the pastor of the church, Rev. Wolcott H. Evans, he having worked with them in connection with the evangelistic work in Arizona, as chairman of the evangelistic committee.

The Rev. Dr. Steele is an evangelist with twenty-one years' experience, both in Canada and the United States. During the past four years, he has worked in some of the hardest fields of the southwest and has been especially successful in mining camps and with the cow boys. He has also had experience among the Indians of Arizona and will give a talk on the Indians one afternoon next week.

The meeting last night was very largely attended. Mr. Hoppy had charge of a large chorus choir and spent half an hour in singing the bright gospel songs and at the close of the service, sang a beautiful solo. Mr. Steele took for his text the words found in Matthew 4:17: "From that time Jesus began to preach, and to say, 'Repent, for the kingdom of heaven is at hand.' It was practical and to the point and at the close of the meeting a number took a stand for Christ.

Meetings will be held each night this week and next except Saturdays, and the public is invited to attend. The church being situated at the corner of Fifty-fifth and Park streets, it is easy of access, either by electric cars or steam train.

IBSEN NOW PLAYED WITHOUT A RIPLE

"Hedda Gabler" can now be played in London, even with a famous actress in the title role, without causing a ripple on the waters of the city-going world. Sixteen years ago it came as a revelation and raised a very tempest. A play which talked with everything and the action little or nothing, which was regarded as its chief sin, the burning of an author's manuscripts, which made so much of trifling matters and so little of single convention, or even a solitary "aside" of which the heroine was so unlike all other heroines, which contained no hero at all, was felt by some to be an insult, by others to be a welcome breath of fresh air, and by all to be something new and unexpected. "Hedda Gabler" is an accepted part of the international repertoire of Europe, and all the trouble of 1891 is as dead as that which surrounded the horn of "Hernani" in 1830.

A NEW ARC LAMP.

A new arc lamp is brought out in Germany by the engineer Tito Carbone. It is provided with a magnetic device for blowing the arc, and is said to give a great increase in the lighting power as well as to improve the light, and the latter resembles sunlight in color. The great lighting power of the lamp is caused by the special form which is given to the carbons, in which the arc is blown. Owing to this form the arc is made to take a hemispherical shape and it is kept in this position, which assures a regular wear to the carbons. The length of the arc is regulated by the carbons, and direct current 55 volts is needed, and 75 volts for alternating current. The Carbone lamp, with 18-inch carbons, will burn for from 14 to 16 hours in spite of the small diameter of the carbons. Above the carbons a current is needed. Prof. Weddell, of Berlin, estimates the luminous intensity in the vertical direction and near the bottom to be 4000 candle power, using a current of ten amperes and 110 volts, this with a clear glass globe. Owing to the oblique position of the carbons, the arc and the crater can project almost all the light downward, which is an advantage. An automatic regulation of the arc is given by an electromagnet device.

EAGLE FIGHTS A MAN.

Frederick Hollenbach, a farmer living on the Schorlar ridge, near Sagserville, was feeding the gray squirrels in his woodland last evening when an eagle flew past that had in its talons one of his lambs. The bird had been annoying the community for a month. Many farmers wanted to shoot it, but the game warden threatened to invoke the law providing for a \$250 fine and imprisonment for killing a bald eagle. The eagle was flying low and, thinking he could save the lamb, Mr. Hollenbach struck the bird sharply with a stick. The eagle dropped the lamb all right, but instead of trying to make for the man, ripping open his face, hands and chest with its talons and practically tearing off his clothes. After it had Hollenbach lying prostrate in the woods the eagle picked up the lamb and flew off. Hollenbach is in bed, with a doctor attending him—Philadelphia Ledger.

Reliable Remedy for Epilepsy

Both sexes and all ages who have any symptoms of Epilepsy, Fits or any nervous twitching or trembling, should use Elzik's Koline at once, the only guaranteed specific for Epilepsy.

W. A. Federmann, the well known druggist of Kansas City, Mo., writes: "Our experience with Elzik's Koline has been truly remarkable and beyond our most sanguine expectation. The many cases that have come under our personal observation have been vastly improved and benefited, place us in a position to recognize a remedy of true merit."

"From a passive interest in this remarkable preparation, we have become very enthusiastic. We do not hesitate to give our endorsement to anyone who is afflicted with this terrible disease, Epilepsy."

Elzik's Koline is free from alcohol, cocaine, morphine or opiates. It is so uniformly successful that it is sold with a guarantee. The price \$1.00 will be refunded by The Koline Drug Co. if not fully satisfied after using a bottle. This trial is given at our expense. Mail orders filled. The Koline Company, Washington, D. No. 3 TRIBUNE PROVERB PICTURE

The TRIBUNE Proverb Hunt is open to everybody except TRIBUNE employees and members of their families.

Do not send in single answers.

HOLD ALL ANSWERS UNTIL THE CLOSE OF THE CONTEST.

Before writing about any point or rule which you do not understand, read over the conditions of contest to make sure that your question is not already answered by the rules.

DO NOT send in any answers until close of contest, and then send in ONLY the ANSWERS—NOT the PICTURES.

No. 3 Picture Represents the Following Proverb or Saying

Contestant's Name.....

Street and Number.....

City or Town and State.....

How to Enter the Hunt

THE TRIBUNE'S Proverb Hunt is a contest of skill and diligence. Every day for fifty days there will appear a picture or cartoon representing a familiar and commonly used English Proverb or Quotation.

The correct answers, to serve as a basis of awards, have been selected from a standard work on English Proverbs and placed under seal. This correct list will be published with the announcement of the winners.

Cut out the picture and the answer blank which will be published every day, commencing Sunday, April 7th, and save until the close of the contest. This will enable you to think about the answers and afford ample time for all members of the family to offer suggestions. As all editions of THE TRIBUNE will be quickly sold out every day, we cannot guarantee to supply back numbers of the paper after the regular edition is sold out. To insure getting the TRIBUNE, order it delivered at your home. One week will be allowed after the publication of the last picture for answers to be sent in. This will afford time for careful answer of the final picture, as well as re-examination of all the pictures. The answers may be filled out in any legible way, by handwriting, typewriting, pencil, ink, etc. Address all answers to the Proverb Hunt Manager.

Rules of the Hunt

- 1—The Proverb Hunt is open to all, but contestants must indicate the proverb each picture represents on the blank provided therefor—and all may compete without charge or consideration of any kind, but only one member of a family will be entitled to receive a prize.
- 2—Contestants may submit as many answers to each proverb as they desire, but each must be upon a separate blank.
- 3—Blanks may be filled out in any legible way, by pen, pencil or typewriter, etc.
- 4—Answers must be sent in only at the close of the contest; all answers must be in the TRIBUNE office one week after the last or fiftieth picture has appeared.
- 5—All answers must be plainly addressed to the Proverb Editor, The Tribune, Oakland, Cal. They may be left at the office or mailed, in which event, they should be fully prepaid.
- 6—Employees of the TRIBUNE, and members of their families, are positively barred from competing for rewards in this contest.
- 7—In making the awards, the judges, whose names will be announced in due course, will take into account the similarity of the answers to the exact wording of the proverb as selected by the Proverb Editor; spelling, punctuation and the correct construction are the essentials that will be graded. Reasonable neatness will be taken into consideration. The awards of the judges will be final in all cases.
- 8—The first prize will go to the person answering all, or nearest all, of the fifty proverbs correctly. The person answering the second largest number correctly, or nearest so, will receive second prize, etc.
- 9—In the event of a tie for any prize, the value of such will be equally divided, or a prize of similar character and value awarded each tying contestant.
- 10—The TRIBUNE reserves the right to make any changes or additions to these conditions that it may deem desirable in the interest of contestants. The good faith and honor of the TRIBUNE are pledged to insure a "square deal" for all.

- SPECIAL PRIZES FOR THE YOUNG FOLKS**
- 36 to 40—PAIR OF HIGH-GRADE ROLLER SKATES.
 - 41 to 50—STORY BOOK—For girls.
 - 51 to 60—STORY BOOK—For boys.

STOP TAKING DRUGS!

They Are Poisons to Your Stomach, Nerves and Vitals

Ever since you can remember you have understood that the way to cure a pain outside was to take something inside. That is the foundation of our American civilization. Since childhood you have depended on drugs to kill pain. It never occurred to you that the drug was also killing the nerves of your stomach and overtaxing the heart. That is the reason for your stomach trouble. You have ruined your stomach with strong drugs and weakened your heart action by driving it beyond its strength with heart stimulants.

Every time you take a drug to force the stomach, your kidneys or heart you hurt them—you actually lessen their natural vitality—and taking another because they are weakened by the first one, and so on, you can see that in time, by steady dosing, you will have no natural action of any of these organs. From the time you take a drug, you will depend upon forced stimulation, and when that fails you are done.

Electro-Vigor is a relief from the old habit—the drug habit. It does by natural means what you expect drugs to do by unnatural means. It gives real strength to your body, and when your body has its natural strength there can't be any trouble, can't be any more HONESTY AND INTEGRITY. Electro-Vigor is a dry-cell body battery, which you wear while you sleep. It is always charged ready for use and generates its own power constantly. You don't have to bother about changing it in vision or acid. The exhilarating sensation is felt without aching or burning, and I have perfected it with the regulating device which makes the current mild or strong at will.

Electro-Vigor does wonders in a few applications. It arouses all the dormant energies, develops muscular and nerve life and restores the feelings of youth, courage and vigor. It makes perfect men of the weakest, puniest specimens of half-men.

Three months' use of Electro-Vigor has made a new man of me. I was weak, back, no kidney trouble, and remarkable relief from what was a very troublesome weakness. L. B. Hohenstall, Madison, Cal.

I am thoroughly satisfied with Electro-Vigor. It has cured my rheumatism and numbness and restored my strength. J. B. OBOY, Box 158, Los Angeles, Cal.

Getting at Feelings Of the Jurors in Case

Special to THE TRIBUNE.

SAN FRANCISCO, April 9.—Abraham Ruef, charged with extortion, came into Judge Dunne's court this morning with as much gaiety and buoyancy in his manner as if he were not one of the most indicted men of the generation. He was ten minutes ahead of the time set for the opening of the court. He was also on hand, considerably in advance of his counsel and passed the time before the commencement of proceedings chatting with the newspaper people whose tables are in close proximity to the seat of the accused.

HABEAS CORPUS.

Regarding the granting of his petition for an alternative writ of habeas corpus, which will enable him to go to the hearing before that tribunal, tomorrow, to make a showing as to why he should be discharged from the custody of the elisor and admitted to bail, Ruef said to THE TRIBUNE correspondent that he had not been greatly affected by the action of the court in question. Indeed, it was something which he had expected, although it was free to admit that he had not given the matter very much consideration. The hearing of the case on the return of the writ tomorrow, he said, would necessitate still another continuance of the case on trial before Judge Dunne, because he had not been able to make his showing in response to the writ of the Supreme Court, but there was no doubt that the matter would be given as full attention by his attorneys as the Supreme Court would permit.

THE PROSECUTION.

District Attorney Langdon said that the State would be represented in the habeas corpus proceedings by Attorney Hiram Johnson, who is conducting the prosecution of Ruef on the charge of extortion, as also by Assistant District Attorney Henry Ach. Mr. Langdon said the hearing would not require much time on the part of the State and he had no doubt that the State would be successful.

Henry Ach, of Ruef's counsel, who was sick yesterday, seemed somewhat improved in appearance today, but he did not look to be a well man by any means. Frederick H. Coon of 2095 Bush street was the first witness examined as to his fitness to serve on the jury. In response to questions propounded by Attorney Johnson for the prosecution, he said he was a salesman in the employ of Baker & Hamilton, that he had no relative in the employ of the municipality, he had no intimacy with any employee of the city, was not acquainted with the counsel for the defense, he had no feeling of bias against the defendant and he knew of no reason why he could not give Ruef a fair and impartial trial.

ASSESSMENT ROLLS.

When under examination by Attorney Ach for the defense, witness stated that he did not think his name was on the assessment roll last year. He had owned some property but had disposed of it in 1905. He had since bought and paid for property but the deed to the same had not passed to him. Ach challenged Coon for not being on the assessment roll for last year. Attorney Johnson denied the challenge. He said he had a transcript which showed that Coon was on the assessment roll. He wanted the rolls brought in as evidence and until that should be done he would deny the challenge. Ach said the salesman had admitted that he was not on the assessment roll and it would be only a loss of time to bring the rolls to court. Judge Dunne said that the District Attorney a few days ago had produced the rolls and proved something contrary to the statement of the counsel of the salesman. If the District Attorney insisted on producing the rolls he would pass temporarily on the granting of the challenge of the salesman by the defense. The next salesman was James Otis of 2231 Broadway, who is in the commission business. He was examined by District Attorney Langdon, and the questions propounded to the salesman were practically the same as those asked by Johnson which brought out the answers above credited to Salesman Coon. In questions propounded by Ach, Otis stated that he had a slight acquaintance with James D. Phelan, but

that acquaintance would not affect him in trying the accused.

Otis also admitted that he knew John D. Spreckels and that he had business deals with the Spreckels in so far as the sugar business was concerned. He had received no favors from the Spreckels family which would impel him to vote against Ruef if he (Otis) should learn that Rudolph Spreckels was putting up money to aid the prosecution.

Ach then referred to the articles in the San Francisco papers directed against Ruef.

"Did you read all of these articles?" asked Ach.

Otis did not, was the answer. "I did not have time."

"You believed that Ruef, as a consequence of those articles was an arch fiend?"

"I did not. I did not form an opinion. I do not form opinions without evidence. I received impressions from what I read."

"You still have those impressions?"

ARBITRATION OF TROUBLE MAY MEAN A SETTLEMENT Factional War in the First Presbyterian Church Will Probably Subside Amicably After Meeting.

Apparently fearful lest their forces meet defeat at the annual church election Wednesday evening, the supporters of W. N. Jenkins, who has been suspended from membership in the First Presbyterian church of this city, "until he shall manifest a desire to do as much for the church as he has done for himself," have asked that a meeting of the session be called for tonight to hear "what they have to say."

EXAMINE MEN FOR NEW JURY

Damage Suit Against Alameda Pottery Company to Be Heard Soon.

Talesmen are being examined in Superior Judge Ogden's court today to sit on the jury which will hear the damage suit instituted by F. W. Vowinkel against W. Clark & Son, the pottery manufacturers of West Alameda. The plaintiff declares that the pottery plant of the company consumes oil which produces a filthy smoke and soot that damages his property on Pacific avenue and which causes his water tanks to be filled with soot. For the damages already said to have been sustained, Vowinkel asks \$5000 and further wants the court to issue a permanent injunction against the smokestack.

Ruef was a fugitive from justice?"

"Yes."

"Did you hear the court or Mr. Henry say that Ruef was a fugitive from justice?"

"I think I heard Mr. Henry say something about it."

"Did that fact that Henry claimed Ruef was a fugitive from justice, or the reading of affidavits to that effect by Henry, prejudice Mr. Ruef in any way at all in your mind?"

"The fact that Ruef ought to have been in court and was not there, it did prejudice him in my mind."

"You believed that if he were an innocent man, he would be present?"

"Yes, I felt that it looked that way."

After a lengthy examination, Ach challenged Otis. Johnson denied the challenge. The court sustained the denial. The court took a recess until 2 p. m.

OLD SOLDIERS WAGE BATTLE

Veterans Quarrel Over Hitching of Horse—Accuse Each Other.

A. H. Yazell and Frank O'Neill, old soldiers, born and reared in the same part of the country, appeared in the Police Court this morning. O'Neill charges Yazell with assault with a deadly weapon, and Yazell retaliates by accusing O'Neill with a battery charge. Both men are in jail.

O'Neill has been hitching his horse to a barn on premises occupied by Yazell, and this it is believed has created trouble between the two men. This morning they met on San Pablo avenue. After hot, angry words, O'Neill is accused of having struck Yazell on the left eye, leaving an ugly gash.

Yazell says O'Neill retaliated and struck O'Neill once or twice with an open pocket knife. In the alleged affray O'Neill's right hand was cut.

After the alleged fight both men walked to the police headquarters, where charges and counter-charges were made, resulting in both being sent to the City Jail.

BUILT STREET WITH BEND TO SAVE TREE

Several patrons of the restaurant at Broadway and Tenth street were hunched there a few days ago, seated at a table between the corner windows on the second floor, which commanded a fine view down Broadway, which makes a sharp turn at Tenth street.

Said one of them: "Do you know that this bend in Broadway was made in order to save a tree? Well, it was. As originally planned, Broadway would have cut a slice off the lawn of Hendrick Brevoort, who ran a tavern in the Dutch farmhouse which stood where Grace church now is. He was an alderman, like many of his profession today, and not only succeeded in saving the magnificent tree in the shade of which his customers lingered over their pipes to watch the traffic on Bloomingdale road, but about 1849 also prevented the opening of Eleventh street from Fourth avenue to Broadway, which would have necessitated the tearing down of his tavern.—New York Sun.

A BALTIMORE M.D.

Says, "Eat whatever your appetite craves." That is what the Christian Scientists say, and the same doctrine finds many advocates among the medical practitioners of today. Mrs. Minster says the same thing, but then she is a born cook, and it is safe enough to eat most anything you crave if the quality and the cooking are of first class. I think quality is the deciding factor with many weak stomachs. I know I cannot eat most anything I crave at Lehnhardt's.

WE OFFER IN EVIDENCE

The last United States census in proof of the fact that out of every one hundred persons dying from kidney trouble ninety-two of them have Bright's disease. It is common knowledge that up to the discovery of Fulton's Renel Compound there was nothing on druggists' shelves that would control this disease. In view of this what is your duty to yourself and your family if you have kidney trouble?

Due to the fatality of the old-time medicines, the deaths from Kidney Disease have more than doubled in ten years, being reported by the Census as now reaching the enormous figure of 63,000 annually, over 170 per day

THE PRESS ADMIT THE CURE HAS BEEN FOUND

The authorities coincide in declaring chronic Bright's Disease incurable. Do not think this a mere assertion under this treatment demand a new adjustment of our beliefs.—Berkeley Renier.	There is no doubt whatever about his having discovered a specific for Bright's Disease and Diabetes. The Tribune is in possession of facts that enable it to state this authoritatively.—Oakland TRIBUNE.	From recent developments in San Francisco and from confirming facts in this city it is evident that not alone relief but a permanent cure of both these dreaded diseases can now be effected.—Kansas City Daily Journal.	"A representative of the News has just returned from San Francisco. The long-sought cure for Bright's Disease has been found, he saw persons a number of whom had recovered and completely cured. Daily News.	"Future history will record this decade as marking the first definite control of Bright's Disease and Diabetes and the name of the obscure but lamented Fulton will be indissolubly connected with it.—Overland Monthly Magazine.	"That chronic Bright's Disease and Diabetes, deemed fatal the world over, are now cured by the compounds discovered in San Francisco by Fulton, as in California.—Buffalo Daily Times.	"Many broad physicians are using the new diuretic but the fact that medical ethics prevent them from proclaiming the discovery to the world because the formula is the property of individuals in this instance practically amounts to a public calamity.—Town and Country Magazine, San Jose.	"My own deliberate opinion is that a perfect cure for Bright's Disease and Diabetes has been at last discovered. I believe it to be the surest of every lower of his kind help save from death some of the thousands who yearly perish from these diseases. Rev. W. S. Urry, in the California Christian Advocate.	"There is in this city a remedy for Diabetes and Bright's Disease which has put several of our dying fellow citizens on their feet. Its virtues are so convincing any fair-minded man.—Monmouth Daily Advertiser.	"It is amazing that in this intelligent age there should be an almost certain specific for Bright's Disease and Diabetes, and yet but few know of it. Let it be recorded that these diseases with care and proper treatment yield almost to a certainty. Spirit Review.	"This item is not written by a subordinate. But by the editor of this publication, and I speak by the card. I had Diabetes myself.—Pacific Coast Men's Journal.	"If the question of the curability of chronic Bright's Disease was on trial in the Superior Court hundreds of citizens of this city, including capitalists, professional and business men, could go into the witness box to swear to their recoveries, and among them would be the editor of this publication.—San Francisco Wine and Spirit Review.	"The publisher knows of two cases in which permanent cures have been effected and of two others who had abandoned hope and are now regaining their health. This statement is made solely with a view of aiding such people as may be effected with Bright's Disease and have despaired of recovery.—Livermore, Cal., Herald.	I feel that I am in duty bound to let your readers know of this thing. I do not know the party who puts up these compounds. I do know, however, that they will help the human family.—Miss Harris, in American Lumberman of Chicago.
